Checking understanding of multiplication with fractions

Task A: Exploring the area model

1) Each of the large squares have an area of 1 m^2 . For each square:

- Label the dimensions of the shaded rectangle
- Write the calculation represented by the area of the shaded rectangle.
- Work out the area of the square that is shaded.

Task B: Multiplication of fractions

1) Calculate the answers to the following. Simplify all answers. Find them in the table and write down which letter each gives. Rearrange your letters to make a word.
