

Name: _____

Priority of operations with positive and negative integers and decimals

Task A: Priority of operations with negatives

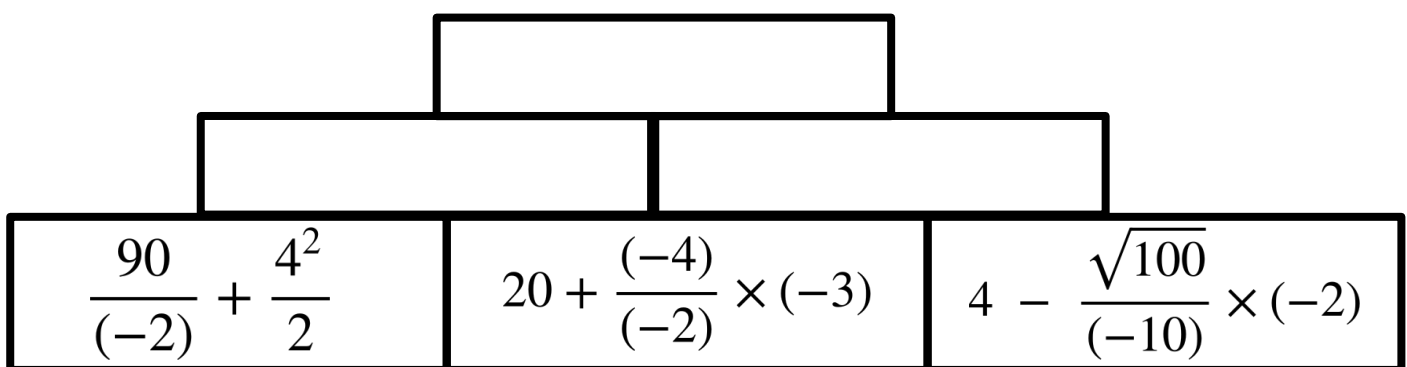

- 1) Fill in the blanks to make the calculation in the centre 24

- 2) Work out the following, ensuring to show your working out.

a) $100 + \sqrt{100 - (-21)} \div (-11)$ b) $50 - (-100 + 149) \div (-7)$

- 3) Fill in the pyramid. The number above the block is the sum of the two below.

Task B: Priority of operations with negatives and decimals

1) Work out the following, ensuring to show all your working out.

$$3.4 - 7.6 + 11.2$$

2) Work out the following, ensuring to show all your working out.

$$13.45 - 2.4 + 3.2 - 1.6$$

3) Work out the following, ensuring to show all your working out.

$$184.2 - (-45.2) \times 16 \div (-4)$$

4) Work out the following, ensuring to show all your working out.

$$10.2 - 1.4 \times (-3.2) + \frac{12^2}{\sqrt{25 + 75}}$$

$$29.08$$

5) Create your own two questions using a combination of operations and decimals so the correct answer is 24. You must use decimals and ensure to check your calculation with a calculator.
