

Securing understanding of arithmetic procedures with integers and decimals

Task A: Using a calculator for integer calculations

- 1) Find one answer in each row which is the only possible correct answer to the question. Each square covers a single digit.

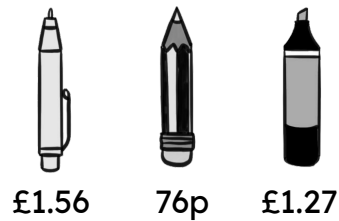

Question	Answer 1	Answer 2	Answer 3
$\square 38 + 4 \square \square$	7 $\square$ A	$\square 3 \square$ I	7 $\square \square 4$ B
$5 \square 8 \square + \square 8 \square 4$	8 $\square \square 1$ R	5 4 $\square 9 \square$ C	8 $\square 1$ A
$\square 53 \square + 1 \square 5 \square 2$	$\square 399$ D	2 $\square \square 099$ R	$\square 3 \square 99$ E
$43 \square \square 2 + \square 86$	4 $\square \square 8$ O	$\square 4 \square 5$ M	4 $\square \square 2 \square$ E
$\square \square 7 - \square \square 6$	4 $\square \square$ T	$\square 33 \square$ W	$\square 3$ H
$\square 2 \square 6 - 4 \square \square$	9 $\square \square 09$ S	$\square 00 \square$ G	9 $\square 9$ F
$\square \square 6 \square 4 - \square 9 \square$	33 $\square 2$ P	$\square 3 \square 6 \square 2$ L	$\square 3 \square \square 2$ N

Rearrange the letters of the correct answers to make a word. *INTEGER*

Task B: Using a calculator for decimal calculations

- 1) Work out the cost of the following:

- a) 5 pens and 2 pencils £9.32
- b) 4 pens, 6 pencils and 1 highlighter £12.07
- c) 1 pen, 4 pencils and 5 highlighters £10.95
- d) 12 pencils and 6 highlighters £16.74
- e) 8 pens, 5 pencils and 3 highlighters £20.09
- f) 175 of each £628.25
