## Checking and securing understanding of written addition and subtraction strategies

### Task A: Checking addition & subtraction strategies

1) Work out the new balance for each account:

| Current balance | Bought                 | New balance |
|-----------------|------------------------|-------------|
| £14 570         | Car                    |             |
| £18.75          | T-Shirt                |             |
| £426.65         | Bike                   |             |
| £152.24         | Fridge                 |             |
| £356.87         | TV                     |             |
| £128.02         | Mobile Phone           |             |
| £265.14         | Your choice of item(s) |             |

| <u>Price List</u> |            |
|-------------------|------------|
| Bike              | £575.75    |
| Car               | £15 650.00 |
| TV                | £480.95    |
| Mobile Phone      | £355.65    |
| T-Shirt           | £25.50     |
| Fridge            | £289.99    |

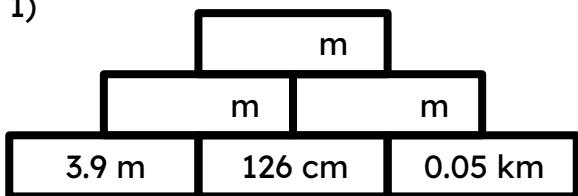

## Task B: Working with values not measured in the same unit

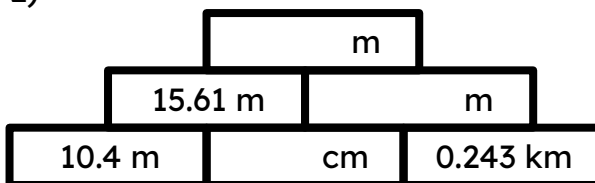

Complete the addition pyramids.

Each brick is the sum of the 2 bricks below it.

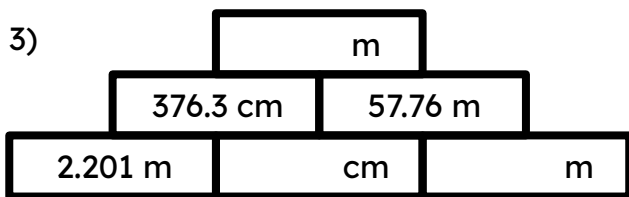

1)

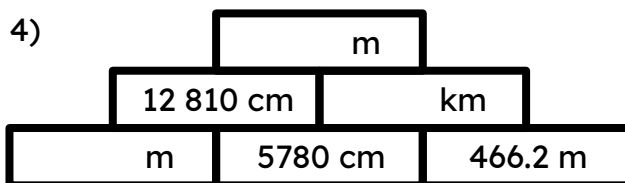

2)

3)

4)

5)
