

Name: _____

Multiplication and division where two or more values are negative

Task A: Multiplying when two values are negative

1) Complete the number pyramids. Each brick is the product of the 2 bricks below it.

2) Create a pyramid with a base of 4 which has a positive number at the top.

Task B: Dividing when two values are negative

Fill in the missing integers in the times table grid

x		4	(-5)			(-2)		
				42				
(-12)								(-96)
		8		14				
						22		
(-9)					(-90)			
	(-9)							24
			(-25)				(-30)	
				(-28)				

Task C: Multiplying and dividing with negative values

Here is a copy of Alex's homework.

Mark and correct any mistakes.

1) $(-2) \times 3 \times (-4) = (-24)$

2) $4 \times (-5) \times 6 = (-120)$

3) $(-36) \div 6 \div (-3) \div (-2) = 1$

4) $100 \div (-4) \div (-5) = 5$

5) $(-1) \times 6 \times 2 \times (-12) = 144$

6) $80 \div (-5) \div (-2) \div 4 = 2$

7) $(-3)^2 = (-9)$

8) $(-2)^3 = 6$

9) Make up some of your own questions with incorrect answers. Think about mistakes people might make.
