

Limitations of technology in calculations

- 1 Jacob uses his calculator to evaluate -3^2 . What will the calculator display as the answer? Tick **1** correct answer
- ☐ 9 as this is the correct answer
- ☐ 9 as the calculator ignores the priority of operations
- ☒ -9 as the calculator follows the priority of operations
- ☐ -9 as this is the correct answer
- 2 Working with fractions is always more accurate than using decimals. Tick **1** correct answer
- ☐ True
- ☒ False
- 3 The calculator displays the decimal 1.234567891. Which of the following could this decimal be? Tick **3** correct answers
- ☒ 1.234567891
- ☒ 1.2345678914
- ☒ 1.234567891
- ☐ 1.23234567891

4 Use your calculator to find the area of Tick 1 correct answer

- ☒ $\frac{5}{12} \text{ m}^2$
- ☐ 0.416 m^2
- ☐ 0.4166666667 m^2
- ☐ $\frac{16}{15} \text{ m}^2$

5 Use your calculator to covert 0.6252 into a fraction. The numerator will be 1563 Fill in the blank

6 Use your calculator to covert 0.0625 into a fraction. The denominator will be 16 Fill in the blank
