

Problem solving with fractions and decimals

- 1 Proportion is a part to whole (sometimes part to part) comparison. Fill in the blank
- 2 To compare $\frac{1}{2}$, $\frac{2}{3}$, $\frac{3}{4}$ and $\frac{5}{6}$ which common denominator would be the most efficient?

Tick **1** correct answer

☐ 6

☐ 8

☒ 12

☐ 24

- 3 Izzy, Andeep, Lucas, Alex and Sam took part in a quiz. Below are the proportions for how many questions they each got right. Order them from worst to best. Use numbers to show the correct order

2	Lucas $\frac{3}{5}$
4	Andeep $\frac{11}{15}$
5	Sam $\frac{9}{10}$
1	Alex $\frac{17}{30}$
3	Izzy $\frac{2}{3}$

- 4 Jacob buys a drink and an ice cream. He also wants to buy a cupcake. He has £5. Can he afford to buy the cupcake? Tick **1** correct answer

- ☐ Yes - he has £2.51 left to spend which is more than enough
- ☐ Yes - he has exactly £1.58 left to spend which is the cost of the cupcake
- ☐ No - he has spent £4.49
- ☒ No - he has £1.51 left to spend which is not enough

- 5 Which item is the third most expensive? Tick **1** correct answer

- ☐ cupcake
- ☐ apple
- ☐ ice cream
- ☐ banana
- ☒ drink

- 6 A rectangle has a length of 0.82 m and a width of $\frac{2}{5}$ m. What is the perimeter of the rectangle? Give your answer in decimal form. Fill in the blank

2.44 m
