

Perpendicular bisector of a line segment

- 1 This quadrilateral is a rhombus with one of its diagonals drawn on. What is the size of angle p ? Fill in the blank

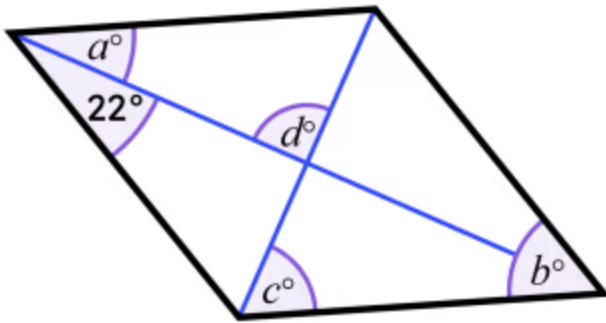

43

- 2 This quadrilateral is a rhombus with one of its diagonals drawn on. What is the size of angle m ? Tick **1** correct answer

- ☐ 35°
☐ 55°
☐ 70°
☒ 110°
☐ 220°

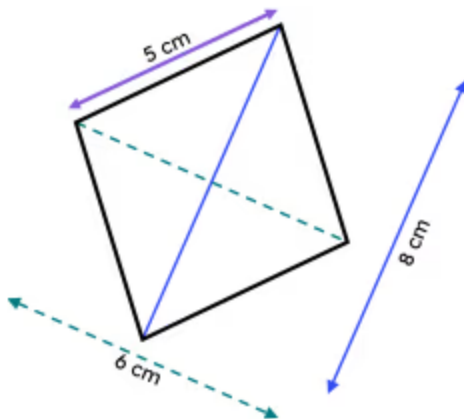

- 3 This quadrilateral is a rhombus with both of its diagonals drawn on. Match the angles in the rhombus to its size. Write the correct letter in each box

a	a
b	b
c	c
d	d

<i>b</i>	44°
<i>c</i>	68°
<i>a</i>	22°
<i>d</i>	90°

- 4 What is the area of this rhombus? Tick **1** correct answer

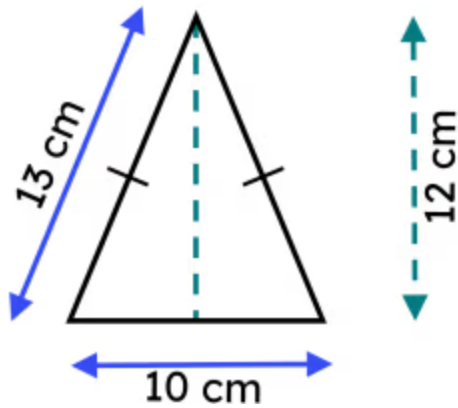

- ☐ 30 cm^2
- ☐ 40 cm^2
- ☒ 48 cm^2
- ☐ 240 cm^2

- 5 A rhombus has side length of 41 cm, and diagonals of length 18 cm and 80 cm. What is the area of this rhombus (in cm^2)? Fill in the blank

1440

- 6 This triangle is reflected with the line of reflection at its base side. The resultant quadrilateral is a rhombus. What is the area of this rhombus (in cm^2)? Fill in the blank

240
