

Name: _____

Checking understanding of rounding

Task A: Rounding to 10, 100 & 1000

1) Find the incorrect statement in each row.

Record the letter. When you have all 7, rearrange them into a word.

Rounded to nearest						
10	82 ≈ 80	A	65 ≈ 60	Y	27 ≈ 30	E
1000	7459 ≈ 8000	U	2084 ≈ 2000	S	3980 ≈ 4000	N
1000	17 856 ≈ 18 000	T	24 068 ≈ 24 000	P	97 254 ≈ 98 000	R
10	793 ≈ 800	L	425 ≈ 430	K	185 ≈ 190	M
10	1576 ≈ 1580	D	8924 ≈ 8900	O	3906 ≈ 3910	V
100	29 856 ≈ 29 900	E	58 501 ≈ 59 000	H	70 398 ≈ 70 400	U
1000	783 010 ≈ 783 000	F	1 809 421 ≈ 1 809 000	I	470 498 ≈ 471 000	G

Task B: Rounding to the nearest whole number

In this task you need to **round** all numbers to the nearest whole number. The first one has been done for you.

Across

- 1) 318.29
- 4) 4907.66
- 5) 61.9
- 7) 265.49
- 9) 96.35
- 10) 391.5

Down

- 1) 305.51
- 2) 83.7
- 3) 1005.74
- 6) 2860.49
- 7) 213.4
- 8) 551.503

1	3	1	2	8	3	
			4			
5	6					
			7		8	
9						
			10			

Task C: Rounding to one or two decimal places

1) **Round** each of the following to one decimal place (1 d.p.)

- a) $3.23 = \underline{\hspace{2cm}}$ (1 d.p.)
- b) $3.38 = \underline{\hspace{2cm}}$ (1 d.p.)
- c) $13.75 = \underline{\hspace{2cm}}$ (1 d.p.)
- d) $13.72 = \underline{\hspace{2cm}}$ (1 d.p.)
- e) $134.51 = \underline{\hspace{2cm}}$ (1 d.p.)
- f) $134.98 = \underline{\hspace{2cm}}$ (1 d.p.)
- g) $2345.03 = \underline{\hspace{2cm}}$ (1 d.p.)

2) **Round** each of the following to two decimal places (2 d.p.)

- a) $4.358 = \underline{\hspace{2cm}}$ (2 d.p.)
- b) $4.352 = \underline{\hspace{2cm}}$ (2 d.p.)
- c) $24.7531 = \underline{\hspace{2cm}}$ (2 d.p.)
- d) $24.75251 = \underline{\hspace{2cm}}$ (2 d.p.)
- e) $224.90753 = \underline{\hspace{2cm}}$ (2 d.p.)
- f) $224.09753 = \underline{\hspace{2cm}}$ (2 d.p.)
- g) $5224.09931 = \underline{\hspace{2cm}}$ (2 d.p.)

3) Using all five digits each time, rearrange the cards in the place value grid to create (and if it's not possible, explain why):

a) A number that **rounds** to 4 000 to the nearest thousand.

e.g.

TTh	Th	H	T	O	•	T th	H th

b) A number that **rounds** to 300 to the nearest hundred.

e.g.

TTh	Th	H	T	O	•	T th	H th

c) A number that **rounds** to 10 to the nearest ten.

e.g.

TTh	Th	H	T	O	•	T th	H th

d) A number that **rounds** to 10 to the nearest whole number.

TTh	Th	H	T	O	•	T th	H th

e) A number that **rounds** to 3.8 to the nearest tenth.

e.g.

TTh	Th	H	T	O	•	T th	H th

f) Which part has the most possible answers?

g) Which part has the fewest possible answers?
