

Checking by estimating

- 1 Match the following numbers to the correct rounded value. (Write the correct letter in each box)

a	9212
b	8934.89
c	8910
d	8934.894

	9000 (1 s.f.)
	8934.9 (1 d.p.)
	8934.89 (2 d.p.)
	8900 (2 s.f.)

- 2 Which of the following are sensible measurements for the lengths of an average house? (Tick 2 correct answers)

- ☐ Front: 844 mm , Side: 596 mm
- ☐ Front: 0.844 km, Side: 0.896 km
- ☐ Front: 844 cm, Side: 596 cm
- ☐ Front: 8.44 m, Side: 5.96 m

- 3 A bookshop wants to buy the new sci-fi books to sell in their store. The bookshop has £789 and each book costs £18.99. Select the correct estimate for the number of books the bookshop can buy. (Tick 1 correct answer)

- ☐ $\frac{800}{20} = 4$ books
- ☐ $\frac{800}{20} = 40$ books
- ☐ $\frac{800}{18.99} = 42.127$ books
- ☐ $\frac{800}{20} = 4000$ books

- 4 Select the approximate answer to $\frac{8}{15} \times 9$. (Tick **1** correct answer)

☐ 3☐ 5☐ 7☐ 12☐ 15

- 5 A bicycle costs £18.99 for 1 week's hire. Which of the following shows the estimate to hire 6 bicycles for 4 weeks? (Tick **1** correct answer)

☐ £20 × 6 × 4 = £240☐ £20 × 6 × 4 = £480☐ £20 × 6 × 4 = £2400☐ £20 × 6 × 4 = £4800☐ £20 × 6 × 4 = £24 000

- 6 Jun buys paper £3.25, USB £□, stamps £4.95, crisps £0.85, staples £2.30 and plug £1.99. He pays with a £20 note and receives about £2 back in change. Estimate the cost of the USB. (Tick **1** correct answer)

☐ £1☐ £2☐ £3☐ £5☐ £7
