

Checking and securing understanding of the distributive law with algebraic terms

- 1 Use the area model to select the correct expanded form for the expression $5(3x + 4)$. Tick **1** correct answer

- ☐ $8x + 4$
☐ $8x + 20$
☐ $15x + 4$
☐ $15x + 20$
☐ $20 - 15x$

- 2 Use the area model to select the correct expanded form for the expression $-3(4x - 6)$. Tick **1** correct answer

- ☐ $-12x - 18$
☐ $-12x - 6$
☐ $-12x + 18$
☐ $12x - 18$
☐ $12x + 6$
