

Checking and securing solving linear equations

1 $\frac{1}{5}$ is the _____ of 5. Tick 1 correct answer

☐ additive inverse

☐ multiplier

☐ opposite

☐ product

☒ reciprocal

2 Expand $4(5x - 2)$. Tick 1 correct answer

☐ $4x - 8$

☐ $9x - 8$

☐ $9x - 2$

☒ $20x - 8$

☐ $20x - 2$

3 The solution to $y + 8 = 5$ is when $y = \underline{-3}$. Fill in the blank

4 The solution to $3y = 15$ is when $y = \underline{5}$. Fill in the blank

5 Which of these equations are equivalent to the equation $5x + 20 = 25$? Tick 2 correct answers

☐ $5x = -5$

☒ $5x = 5$

☐ $5x = 25$

☒ $x + 4 = 5$

☐ $x + 20 = 5$

- 6 Which of these equations are equivalent to the equation $4x + 14 = 2x - 7$? Tick 2 correct answers

☒ $2x + 14 = -7$

☐ $6x + 14 = -7$

☐ $2x + 7 = x - 7$

☒ $14 = -2x - 7$

☐ $4x = 2x + 7$
