

Checking understanding of similarity

- 1 A property of a shape is invariant if that property has not changed after the shape is transformed. (Fill in the blank)
- 2 A shape is being enlarged by a scale factor of 4. One vertex is 3 cm from the centre of enlargement. Its corresponding vertex on the image will be 12 cm from the centre of enlargement. (Fill in the blank)

- 3 Sofia is enlarging the shape by a scale factor of 2. Which vertex has Sofia plotted incorrectly? (Tick 1 correct answer)

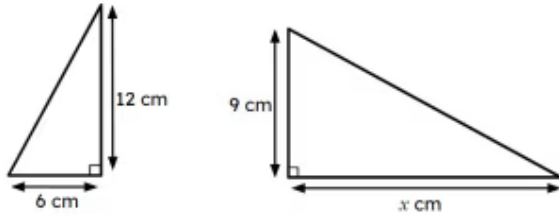

- ☐ A
- ☒ B
- ☐ C

- 4 A parallelogram is enlarged by a scale factor of 3. Which of the following measurements will remain invariant? (Tick 1 correct answer)

- ☒ The angles.
- ☐ The length of its base.
- ☐ The length of its height.
- ☐ The length of its slope.

- 5 The two triangles are similar. The value of x is 18.

- 6 A triangle has a base of 6 m and height of 2 m. A similar triangle, in the same orientation, has a base of 15 feet. Its height is 5 feet. (Fill in the blank)
