

Congruent triangles (RHS)

- 1 Convert this measurement to centimetres: 23 mm = _____ cm. Fill in the blank
- 2 This angle is _____ °. Fill in the blank

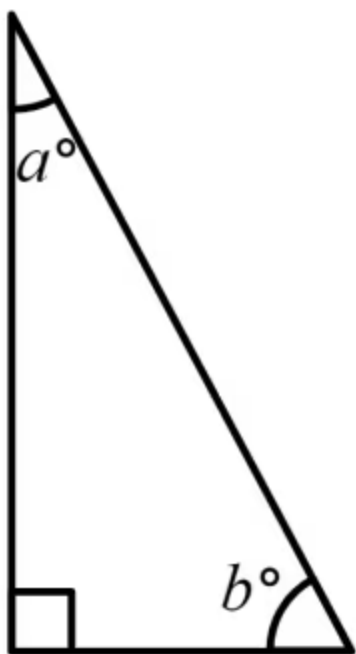

- 3 Which of these triangles can contain a right angle? Tick **2** correct answers

- ☐ scalene triangle
- ☐ isosceles triangle
- ☐ equilateral triangle
- ☐ obtuse-angled triangle

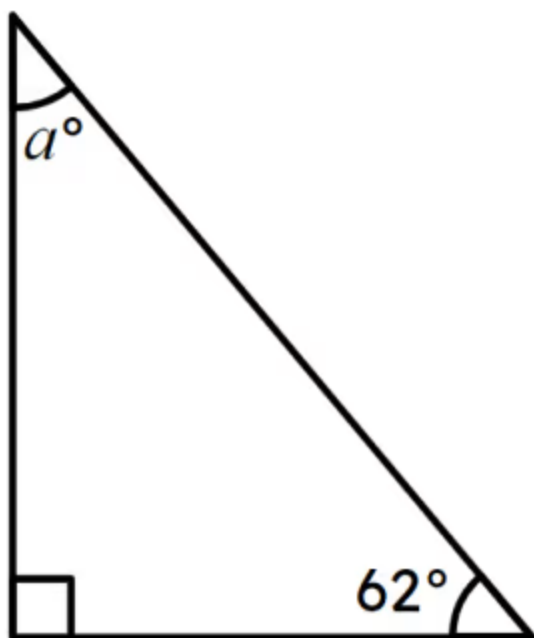

- 4 In all right-angled triangles, what is true about the angles a° and b° ? Tick **2** correct answers

- ☐ $a^\circ = b^\circ$
☐ $a^\circ + b^\circ = 90^\circ$
☐ $a^\circ < b^\circ$
☐ $b^\circ < 90$
☐ $a^\circ \geq 90^\circ$

- 5 In this right-angled triangle, $a^\circ =$ _____ $^\circ$ Fill in the blank

6 Select all the properties of a rhombus. Tick **3** correct answers

- ☐ All sides are equal
- ☐ Opposite angles are equal
- ☐ Diagonals are equal in length
- ☐ Diagonals are perpendicular
- ☐ No lines of symmetry
