

Name: _____

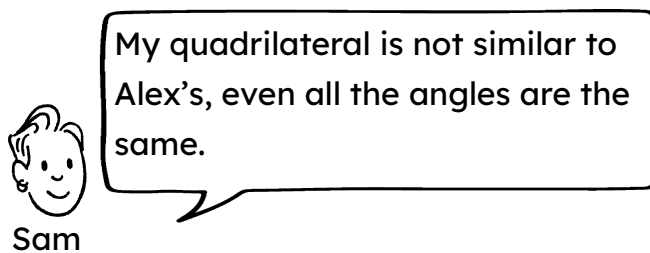

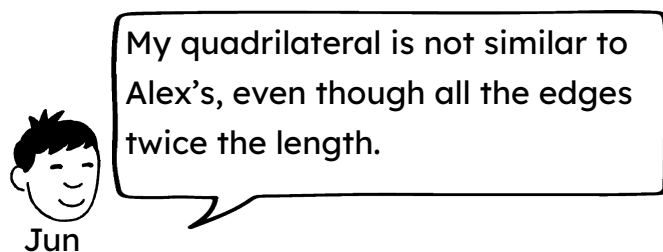

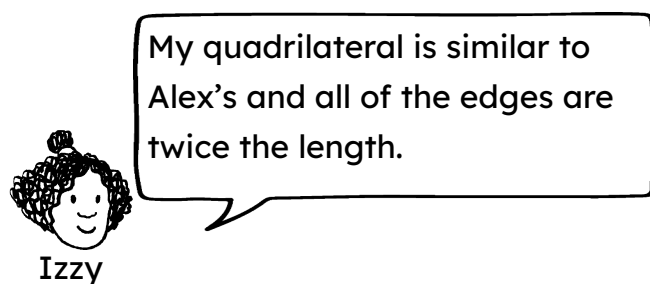

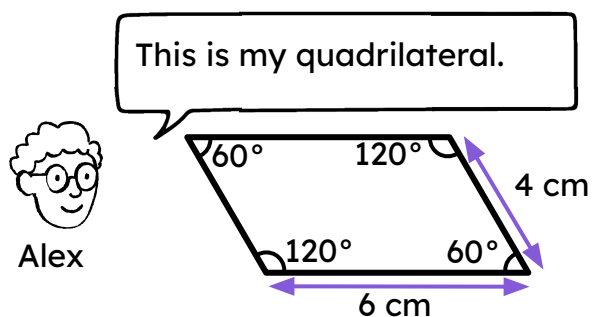

Similarity in shapes

Task A: Identifying whether shapes are similar

1) Are the two shapes below similar? Justify your answer with reasoning.

2) Alex, Izzy, Jun and Sam have drawn some quadrilaterals.

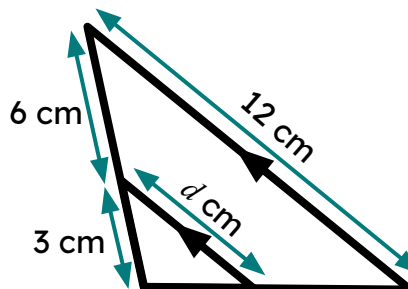

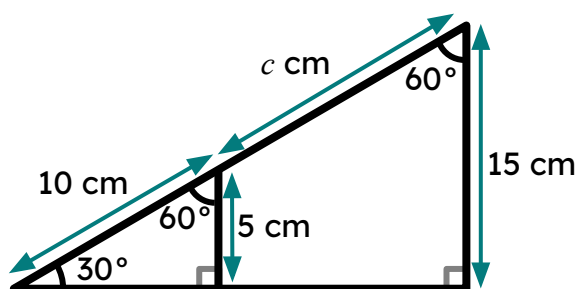

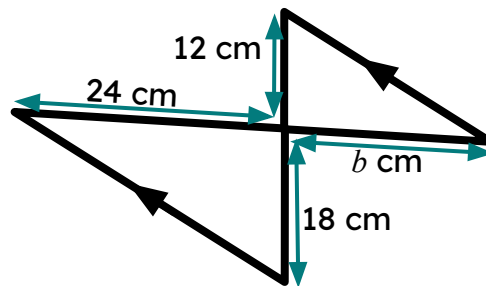

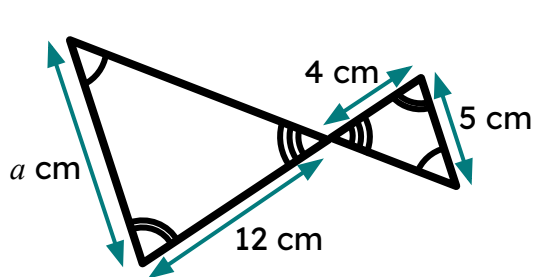

Sketch a possible quadrilateral for Izzy, Jun and Sam.

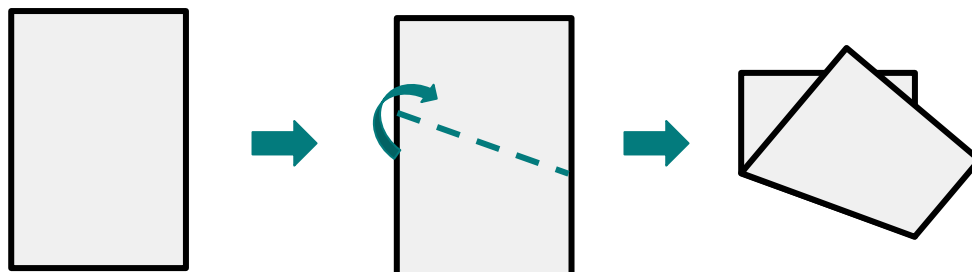

Task B: Finding similar shapes in complex diagrams

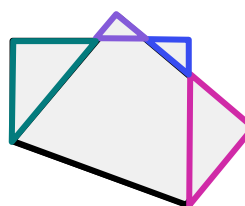

1) Find the value of each unknown.

2) Take a piece of paper and fold it, as shown below.

The paper that does not overlap makes four triangles.

Prove that these four triangles are all similar.
