

Congruent triangles (SAS)

- 1 The angle being measured is 110°. Fill in the blank

- 2 The two marked angles are _____ angles in parallel lines. Tick 1 correct answer

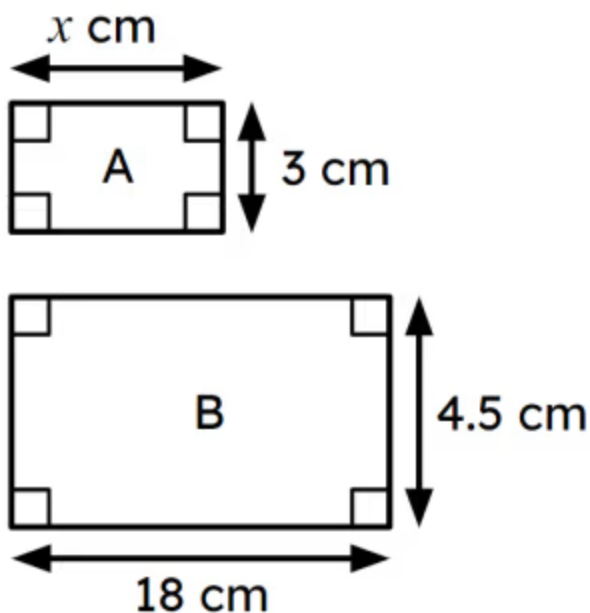

- ☐ exterior alternate
☒ interior alternate
☐ co-interior
☐ corresponding

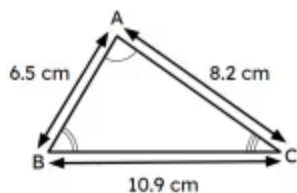

- 3 Select all the properties of a parallelogram. Tick 3 correct answers

- ☐ 2 lines of symmetry
☒ opposite angles are equal
☒ opposite edges are equal
☐ one set of parallel sides
☒ four sets of supplementary co-interior angles

- 4 Rectangle A and rectangle B are similar. The length of the side marked x is 12 cm. Fill in the blank

- 5 Triangle ABC and triangle XYZ are congruent. Which edge is 6.5 cm on triangle XYZ? Tick 1 correct answer

- ☒ XY
☐ XZ
☐ YZ

- 6 The diagram shows two pairs of lines intersecting at a point. The value of x is 60. Fill in the blank
