

Congruent triangles (SAS)

1 The angle being measured is _____ °. Fill in the blank

2 The two marked angles are _____ angles in parallel lines. Tick **1** correct answer

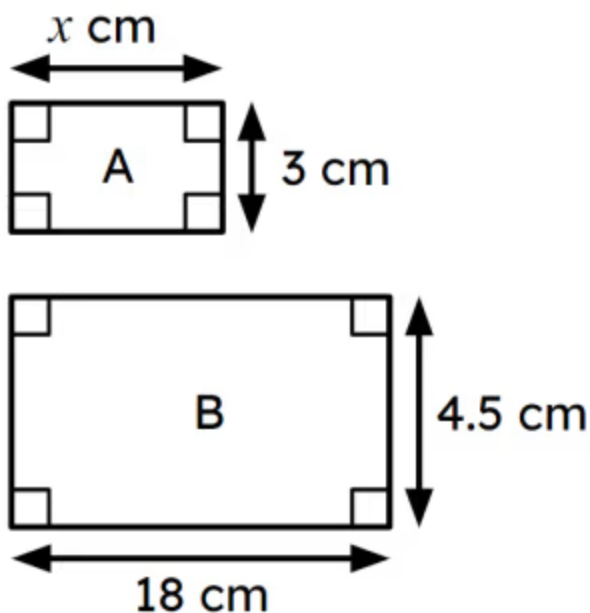

- ☐ exterior alternate
- ☐ interior alternate
- ☐ co-interior
- ☐ corresponding

3 Select all the properties of a parallelogram. Tick **3** correct answers

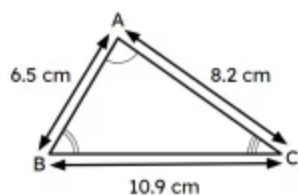

- ☐ 2 lines of symmetry
- ☐ opposite angles are equal
- ☐ opposite edges are equal
- ☐ one set of parallel sides
- ☐ four sets of supplementary co-interior angles

- 4 Rectangle A and rectangle B are similar. The length of the side marked x is _____ cm. Fill in the blank

- 5 Triangle ABC and triangle XYZ are congruent. Which edge is 6.5 cm on triangle XYZ? Tick 1 correct answer

- ☐ XY
☐ XZ
☐ YZ

- 6 The diagram shows two pairs of lines intersecting at a point. The value of x is _____. Fill in the blank
