

Checking understanding of pictograms and bar charts

Task A: Pictograms

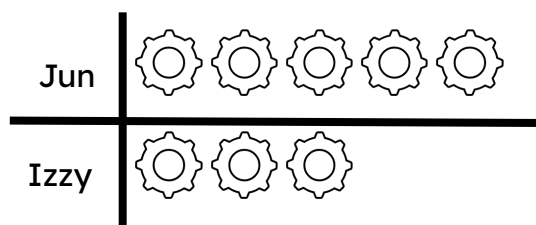

1) Complete the statements regarding the pictogram.

- a) Most people play *football*
- b) *Golf* is the least played sport
- c) Twice as many people play hockey than *rugby*
- d) The same amount of people play football as *hockey* and *rugby* combined.

2) Complete the pictogram.

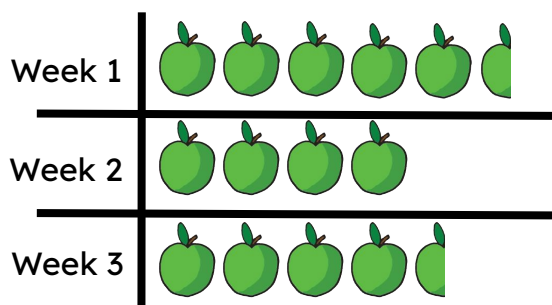

Jun has 6 more cogs than Izzy.

 = 3 cogs

3) Add the key to this pictogram.

There is a total of 280 apples.

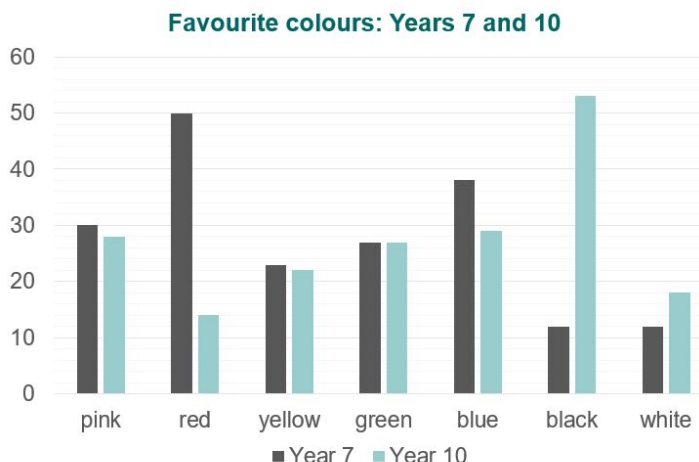

Key
 = 20 apples

Task B: Bar charts

1)

Use this bar chart to answer the following questions:

a) Which was the most popular colour in each year?

Year 7: red, Year 10: black

b) Compare the number of students who liked yellow best in each year group.

One more student liked yellow in year 7 than year 10.

c) How many more Year 7 students than year 10 students liked green best?

None, it was equal.

d) How many students were in each year group?

Year 7: 192 students

Year 10: 191 students

2) This bar chart shows the different ways that students travel to school. Label the two axes and complete the bar chart based on the clues.

- The most popular way to travel is walking.
- The least common way to travel is on a scooter.
- Twice as many people walk as cycle.
- The number of people who travel by car is three-quarters of the number of people who walk.
- Twelve people travel by bus.
