

## Interpreting scatter graphs

1 Which point on the graph has the coordinates (3, 8)? Tick **1** correct answer

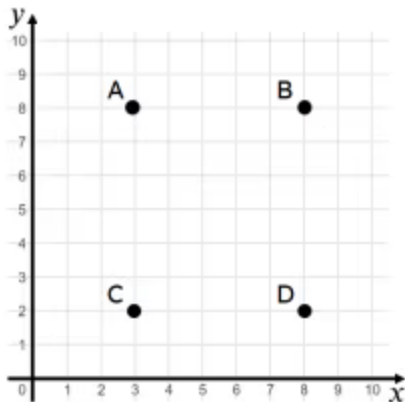

☒ A

☐ B

☐ C

☐ D

2 What are the coordinates of Point C in this graph? Fill in the blank

(3, 2)

3 Which is another term to describe the independent variable in bivariate data? Tick **1** correct answer

☐ dependent variable

☒ explanatory variable

☐ response variable

☐ series

- 4 A scatter graph is a visual representation for bivariate data, which can be useful when determining the nature of the relationship between the variables. Fill in the blank
- 5 A set of bivariate data measures the length of an obstacle course and the time it takes for people to complete it. Which variable is most likely to be the dependent variable? Tick **1** correct answer
- ☐ length of obstacle course
- ☒ time taken to complete the course
- 6 A set of bivariate data measures the length of an obstacle course and the time it takes for people to complete it. Which variable should go on the horizontal axis of a scatter graph? Tick **1** correct answer
- ☒ length of obstacle course
- ☐ time taken to complete the course
