

Name: _____

Constructing bar charts by utilising technology

Task A: Creating bar charts on spreadsheet software

- 1) The flower sales at a garden centre are recorded.

a) Create a bar chart for this list of data:

rose, tulip, marigold, viola, rose, rose, marigold, viola, daffodil, tulip, daffodil, petunia, marigold, daffodil, rose, tulip, petunia, petunia, tulip, marigold, rose, viola, rose, petunia, viola, viola

Ensure it has a title on both axes.

- b) Would you advise the garden centre to order an equal amount of each flower next time or different amounts? Explain your answer.

- 2) Create a bar chart for this table of data about visitors to a museum.

Day of the week	Frequency
Monday	28
Tuesday	25
Wednesday	32
Thursday	27
Friday	34

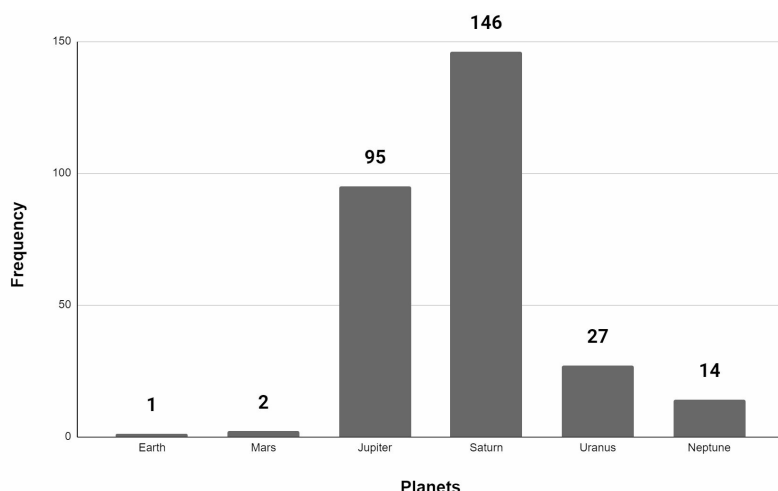

- 3) Create a bar chart for this table of data about visitors to a museum.

Day of the week	Frequency (week 1)	Frequency (week 2)
Monday	28	24
Tuesday	25	23
Wednesday	32	34
Thursday	27	26
Friday	34	32

What is different about this bar chart?

Task B: Creating bar charts using a template file

- 1) Using the [Template file](#)  recreate this bar chart.

- 2) [Task B Question 2](#)  recreate this bar chart showing the number of time zones per country (including overseas territories).
