## Checking and securing understanding of plotting coordinates generated from a rule

---

- 1 This table of values tells us the \_\_\_\_\_ to plot the relationship  $y = 3x + 4$ .  
Fill in the blank

|     |    |    |    |   |   |    |    |
|-----|----|----|----|---|---|----|----|
| $x$ | -3 | -2 | -1 | 0 | 1 | 2  | 3  |
| $y$ | -5 | -2 | 1  | 4 | 7 | 10 | 13 |

- 2 What is wrong with this plotting of the arithmetic sequence  $2n - 1$ ? Tick **1** correct answer

- ☐ The coordinates are wrong.
- ☐ The line should extend to the edges of the grid.
- ☐ There shouldn't be a line through the points.
- ☐ The points should not line up.
- ☐ You need more than 5 term numbers.

3 Which of these arithmetic sequences could this graph represent? Tick **1** correct answer

☐  $17 - 5n$

☐  $5n - 17$

☐  $n - 17$

☐  $5 - n$

☐  $5 - 17n$

4 What are the two missing y coordinate values for this linear rule? Tick **2** correct answers

|     |    |    |   |   |    |    |
|-----|----|----|---|---|----|----|
| $x$ | -2 | -1 | 0 | 1 | 2  | 3  |
| $y$ |    |    | 4 | 9 | 14 | 19 |

☐ - 1

☐ - 4

☐ - 5

☐ - 6

☐ - 9

5 This is a table of values for a linear rule but there is an error. Which value is the error? Tick **1** correct answer

|     |    |    |    |   |    |    |     |
|-----|----|----|----|---|----|----|-----|
| $x$ | -3 | -2 | -1 | 0 | 1  | 2  | 3   |
| $y$ | 26 | 19 | 12 | 5 | -3 | -9 | -16 |

☐  $y = 26$

☐  $y = 19$

☐  $y = 5$

☐  $y = -3$

☐  $y = -16$

6 For the linear rule  $y = 13 - 2x$  what is the  $y$  coordinate when  $x = -5$ ? Tick **1** correct answer

☐ 23

☐ 18

☐ 11

☐ 8

☐ 3
