

Catering

- 1 Laura is cooking for her family. Calculate the mass (to the nearest gram) for the chicken that she needs to buy. (Tick **1** correct answer)

Food	% yield	Cost per kg
Chicken	84 %	£6.49
Carrots	97 %	68 p
Sweet Potatoes	82 %	£1.19
Onions	89 %	99 p

Chicken & Mash (8 servings)
 2 kg prepared chicken
 800 g chopped carrots
 880 g sweet potatoes
 0.25 kg chopped onions

- ☐ 281 g
☐ 825 g
☐ 1074 g
☐ 1940 g
☐ 2381 g

- 2 Laura is cooking for her family. Calculate the mass (to the nearest gram) for the carrots that she needs to buy. (Tick **1** correct answer)

Food	% yield	Cost per kg
Chicken	84 %	£6.49
Carrots	97 %	68 p
Sweet Potatoes	82 %	£1.19
Onions	89 %	99 p

Chicken & Mash (8 servings)
 2 kg prepared chicken
 800 g chopped carrots
 880 g sweet potatoes
 0.25 kg chopped onions

- ☐ 281 g
☐ 825 g
☐ 1074 g
☐ 1940 g
☐ 2381 g

- 3 Laura is cooking for her family. Calculate the mass (to the nearest gram) for the sweet potatoes that she needs to buy. (Tick **1** correct answer)

Food	% yield	Cost per kg
Chicken	84 %	£6.49
Carrots	97 %	68 p
Sweet Potatoes	82 %	£1.19
Onions	89 %	99 p

Chicken & Mash (8 servings)
 2 kg prepared chicken
 800 g chopped carrots
 880 g sweet potatoes
 0.25 kg chopped onions

- ☐ 281 g
☐ 825 g
☐ 1074 g
☐ 1940 g
☐ 2381 g

- 4 Laura is cooking for her family. Calculate the mass (to the nearest gram) for the onions that she needs to buy. (Tick **1** correct answer)

Food	% yield	Cost per kg
Chicken	84 %	£6.49
Carrots	97 %	68 p
Sweet Potatoes	82 %	£1.19
Onions	89 %	99 p

Chicken & Mash (8 servings)
2 kg prepared chicken
800 g chopped carrots
880 g sweet potatoes
0.25 kg chopped onions

- ☐ 281 g
- ☐ 825 g
- ☐ 1074 g
- ☐ 1940 g
- ☐ 2381 g

- 5 Laura needs to buy 2.381 kg of chicken to ensure she has enough chicken after preparation. Assuming the cost is proportional to the mass, what will this cost her?

Food	% yield	Cost per kg
Chicken	84 %	£6.49
Carrots	97 %	68 p
Sweet Potatoes	82 %	£1.19
Onions	89 %	99 p

Chicken & Mash (8 servings)
2 kg prepared chicken
800 g chopped carrots
880 g sweet potatoes
0.25 kg chopped onions

- 6 Laura needs to buy 281 g of onions to ensure she has enough onion after preparation. Assuming the cost is proportional to the mass, what will this cost her?

Food	% yield	Cost per kg
Chicken	84 %	£6.49
Carrots	97 %	68 p
Sweet Potatoes	82 %	£1.19
Onions	89 %	99 p

Chicken & Mash (8 servings)
2 kg prepared chicken
800 g chopped carrots
880 g sweet potatoes
0.25 kg chopped onions
