

Name: _____

Graphic designer

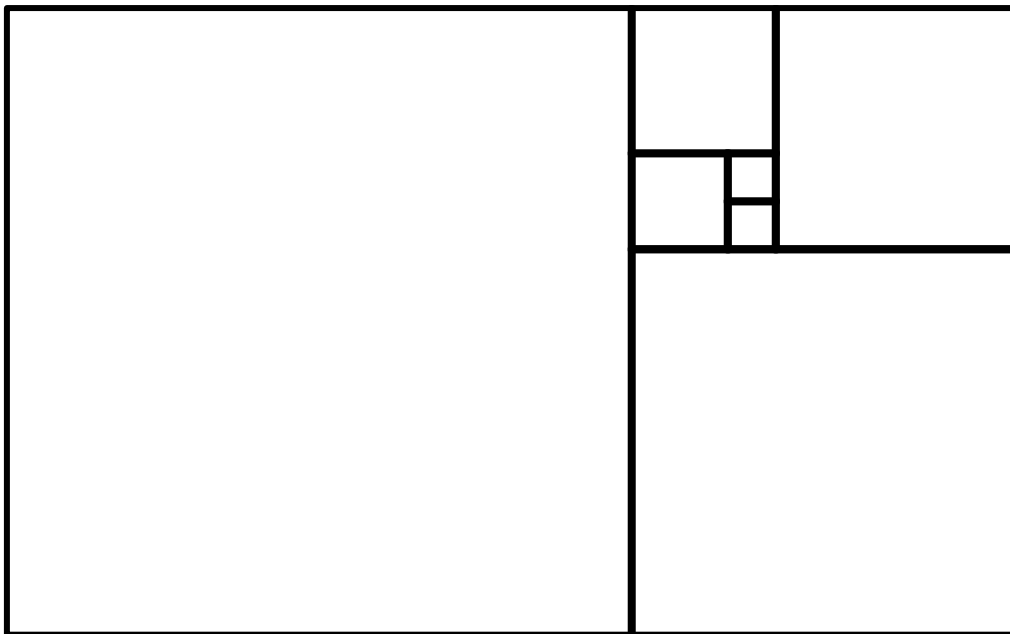

Task A: The golden ratio

1) Design a logo for a company using the golden ratio template.

Write a paragraph detailing why your logo represents the company well.

For example, if you chose a restaurant chain and you designed a burger then this logo is in keeping with what the restaurant chain stands for.

Template

Task B: Rotational symmetry in art

- 1) a) Create a design using basic shapes. Your design should have rotational symmetry.
- b) Create a second version of your design that does not have rotational symmetry.

2) Show your two designs to your classmates/friends/family.
Ask them ‘Which image appeals more to you?’

Record the results.

3) Create a chart to display your results. Which image is more popular? Why do you think this is?
