

Comparing summaries of data

1 Which of these is not a measure of central tendency? Tick **1** correct answer

- ☐ mean
- ☐ median
- ☐ mode
- ☒ range

2 Describe the modal properties of this data set: 12, 12, 9, 8, 8, 4, 0, 3, 12, 9, 9 Tick **1** correct answer

- ☐ mode at 12
- ☐ mode at 9
- ☐ bimodal at 12 and 8
- ☒ bimodal at 12 and 9
- ☐ trimodal at 8, 12, and 9

3 By how much is the range of data set A greater than the range of data set B? 8 Fill in the blank

dataset A	13	13	1	5	12	16	12
dataset B	19	15	13	12	16	16	

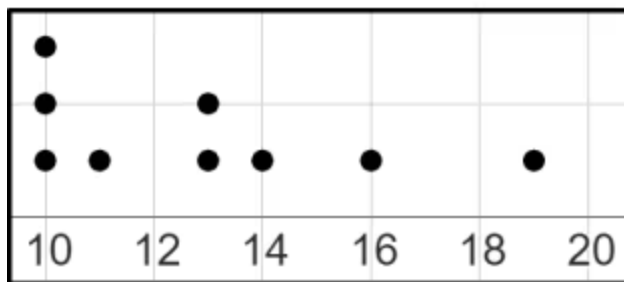

- 4 Match each of the mean, median, mode, and range to its value for this data set: 1, 1, 1, 3, 3, 5, 6, 7, 9 Write the correct letter in each box

a	mean
b	median
c	mode
d	range

a	4
b	3
d	8
c	1

- 5 Match each summary statistic to its value for this dot plot. Write the correct letter in each box

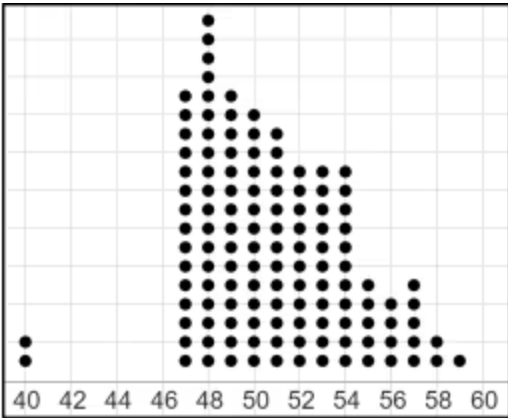

a	range
b	mode
c	median

b	10
c	13
a	9

- 6 Which of these is a reasonable estimate for the mean of this data set? Tick **1** correct answer

- ☐ 19
- ☐ 40
- ☐ 42.5
- ☒ 50.8
- ☐ 58
