

Statistical problems - data collection

1 When you count how many individuals (people, animals etc.) are in each category of a data set you are finding the frequency for each category. Fill in the blank

2 Put the stages of a data investigation in order. Use numbers to show the correct order

3	organising the data
6	choosing outcomes or actions based on the results
1	asking a question to explore
5	interpreting the data
2	collecting data
4	analysing the data

3 Which of these data sets can only contain integer values? Tick 1 correct answer

- ☐ distances travelled on a train (miles)
- ☒ number of people travelling on a train
- ☐ time spent on a train (minutes)
- ☐ weights of trains (tons)

4 Which tool measures length? Tick 1 correct answer

- ☒ measuring tape
- ☐ stop watch
- ☐ weighing scales

5 What is the frequency of 'moon' in the list? 4 Fill in the blank

moon, star, moon, star, star,
planet, planet, moon, star,
planet, asteroid, star,
asteroid, planet, moon, star

6 Which is an example of a tally chart? Tick **1** correct answer

Colour	
red	
green	
blue	

Place to visit	Frequency
Museum	15
Theatre	18
Zoo	13
