

Statistical problems - data presentations

1 Match each graph to its description. Write the correct letter in each box

a	bar chart
b	pictogram
c	pie chart
d	scatter graph

<i>b</i>	represents frequencies with contextual images and a key
<i>d</i>	represents bivariate data as coordinates on a grid
<i>c</i>	circular graph representing different groups proportionally
<i>a</i>	represents frequencies with bars

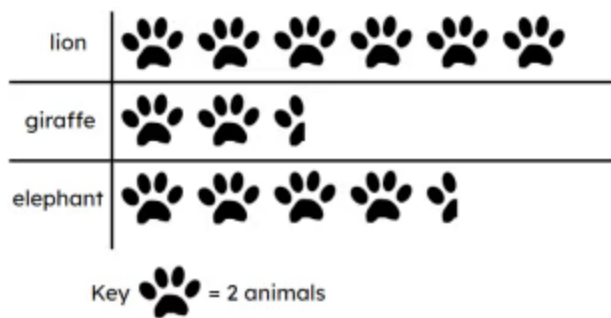

2 What type of correlation does the scatter graph show? Tick **1** correct answer

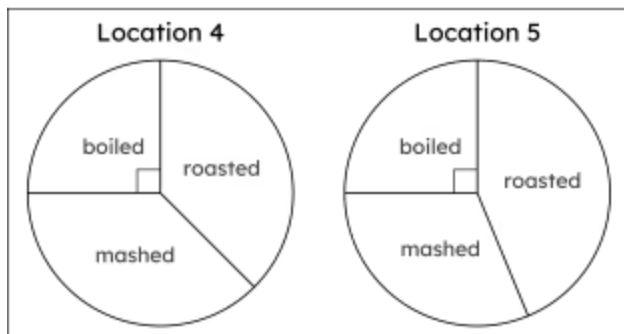

- ☐ negative correlation
- ☐ no correlation
- ☒ positive correlation

- 3 How many giraffes are represented in the pictogram? 5 giraffes Fill in the blank

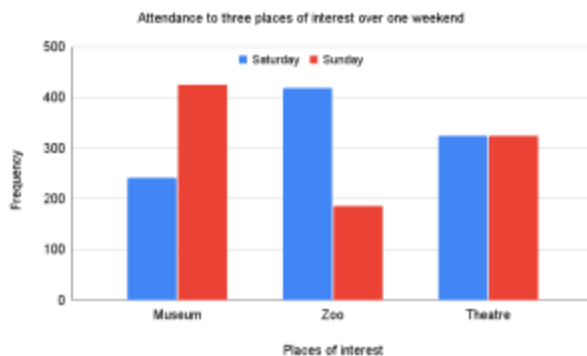

- 4 The pie charts show the types of potato served by school canteens in two locations. Which statement is always true for the data represented in the pie charts? Tick **1** correct answer

- ☐ The frequency of mashed potato is greater in Location 4 than Location 5.
- ☒ The proportion of mashed potato is greater in Location 4 than Location 5.
- ☐ The amount of boiled potato served is the same in both locations

- 5 Which place had the same number of visitors on both Saturday and Sunday? Tick **1** correct answer

- ☐ Museum
- ☐ Zoo
- ☒ Theatre

- 6 This line graph shows data about journey times to work over a week. The median journey time is 28 minutes. Fill in the blank
