

Area of a triangle

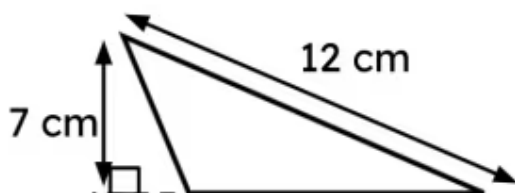

1 The perpendicular height is the perpendicular distance from the base to the opposite vertex. Fill in the blank

2 True or false? You can calculate the area of this triangle. Tick **1** correct answer

- ☐ True
☒ False

3 True or false? You can calculate the area of this triangle. Tick **1** correct answer

- ☐ True
☒ False

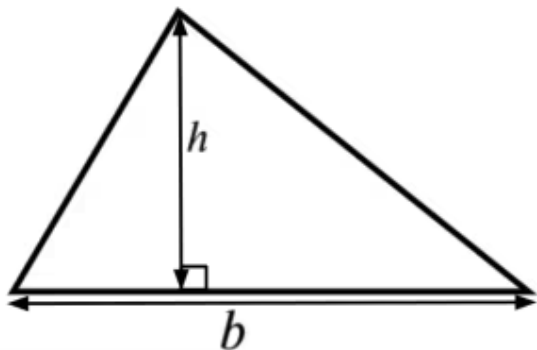

4 Calculate the area of a triangle with a base of 8 cm and a perpendicular height of 5 cm (you do not need to give the units). Fill in the blank

20

5 Two identical triangles can always be placed together to create a parallelogram. Fill in the blank

6 Which of these is **not** a way to calculate the area of this triangle? Tick **1** correct answer

☒ base $\times$ perpendicular height $\times$ 0.2

☐ base $\times$ perpendicular height $\times \frac{1}{2}$

☐ $b \times h \times \frac{1}{2}$

☐ $\frac{bh}{2}$
