

Name: _____

Exit quiz

Surface area of cuboids

- 1 Each of these compound shapes are different arrangements of six congruent squares. Which of the compound shapes are nets of a cube? Tick **3** correct answers

- ☐ a
☐ b
☐ c
☐ d
☐ e

- 2 Which of these compound shapes are nets of a cuboid? Tick **2** correct answers

- ☐ a
☐ b
☐ c
☐ d

3 This diagram shows six rectangles that can be connected together to create the net of a cuboid. Match each rectangles to its area. Write the correct letter in each box

a	a
b	b
c	c

	40 cm ²
	16 cm ²
	10 cm ²

4 This is the net of a cuboid. The surface area of the cuboid after this net is folded up is _____ cm². Fill in the blank

5 Some of the calculations to find the surface area of this cuboid are given. The value of b is greater than the value of c. Match each missing length or area to its value. Write the correct letter in each box

area of top face

$$2 \times 5 = 10 \text{ cm}^2$$

area of right face

$$11 \times \boxed{a} =$$

area of front face

$$\boxed{b} \times \boxed{c} =$$

surface area = $\boxed{d}$

a	a
b	b
c	c
d	d
e	total area of visible faces

	87 cm ²
	11 cm
	5 cm
	174 cm ²
	2 cm

6 A cuboid has been drawn on isometric paper, where each unit of isometric paper represents 1 inch. The total surface area of this cuboid is _____ square inches. Fill in the blank
