

Name: _____

Surface area of prisms

Task A: Nets of right prisms

1) Match the net to its prism. Sketch the missing net and prism.

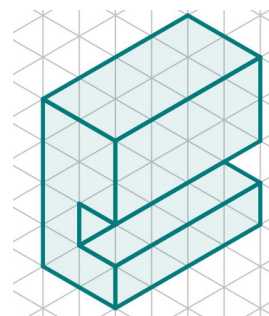

Task B: Calculating the surface area of prisms

1) a) Complete the description of the faces for this right octagonal prism.

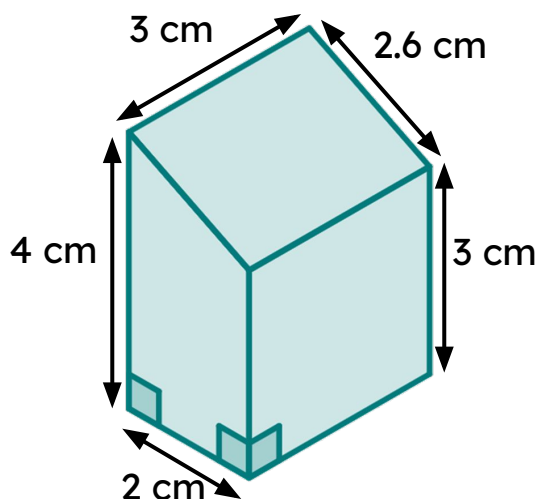

_____ irregular octagons

8 _____

b) Draw all the **unique** faces of this prism, with dimensions.

2) Work out the surface area of this right trapezium based prism.

Task C: Being efficient in finding the surface area

Calculate the surface area of the following right prisms

Diagrams not drawn to scale
