

Problem solving with place value

1 Match the equivalent measurements. Write the correct letter in each box

a	110 mm
b	110 cm
c	110 m
d	110 km

a	11 cm
c	0.11 km
b	1100 mm
d	110 000 m

2 True or false? Measurements must always be converted to common units in order to compare them. Tick **1** correct answer

- ☐ True
- ☒ False
- ☐ Not sure

3 True or false? Imperial measures are no longer used today. Tick **1** correct answer

- ☐ True
- ☒ False
- ☐ Not sure

4 The length of a car should be measured in Tick **1** correct answer

- ☐ mm
- ☐ cm
- ☒ m
- ☐ km

5 The mass of a dog should be measured in Tick **1** correct answer

- ☐ grams
- ☒ kilograms
- ☐ ounces

6 The distance between Birmingham and Leeds should be measured in Tick **2** correct answers

- ☐ feet
- ☐ inches
- ☒ miles
- ☐ metres
- ☒ kilometres
