

Comparing representations of outcomes for more than two events

1 Which of these statements is true? Tick 2 correct answers

- ☐ An outcome table can be used to list the outcomes of a three-stage trial.
- ☐ An outcome table can categorise the outcomes of a trial into three events.
- ☐ A Venn diagram can be used to list the outcomes of a three-stage trial.
- ☐ A Venn diagram can categorise the outcomes of a trial into three events.
- ☐ An outcome tree can be used to list the outcomes of a three-stage trial.

2 Lucas creates an outcome tree to systematically list all possible three-course meals. The 1st layer of branches will show the starters. The number of branches needed for the 1st layer is _____. Fill in the blank

Starters	Mains	Desserts
Bruschetta	Sushi Rolls	Tiramisu
Scallops	Cottage Pie	Cheesecake
Samosas	Lasagne	Raspberry Coulis
3-Bean Salad	Thai Curry	
	Vegetarian Lasagne	

3 Lucas creates an outcome tree to systematically list all possible three-course meals. The 2nd layer of branches will show the mains. The number of branches needed in total for the 2nd layer is _____. Fill in the blank

Starters	Mains	Desserts
Bruschetta	Sushi Rolls	Tiramisu
Scallops	Cottage Pie	Cheesecake
Samosas	Lasagne	Raspberry Coulis
3-Bean Salad	Thai Curry	
	Vegetarian Lasagne	

- 4 This is an incomplete list of outcomes to a three-stage trial. Match each statement to the minimum number of outcomes that completes the sentence. Write the correct letter in each box

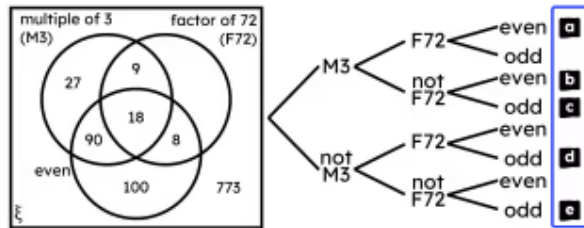

a	The first stage of the trial has...
b	The second stage of the trial has...
c	The third stage of the trial has...
d	The whole trial has...

	a minimum of 24 outcomes.
	a minimum of two outcomes.
	a minimum of three outcomes.
	a minimum of four outcomes.

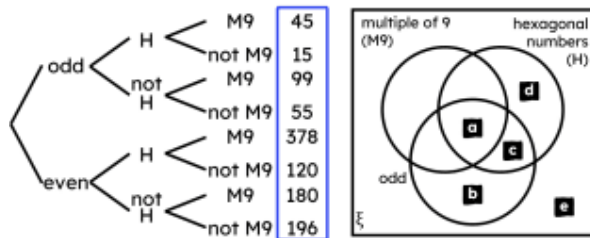

5 This Venn diagram and outcome tree both show events for the same trial. Match each letter in the outcome tree to the correct outcome from the Venn diagram. Write the correct letter in each box

a	a
b	b
c	c
d	d
e	e

	no outcome
	27
	90
	773
	18

- 6 This Venn diagram and outcome tree both show events for the same trial. Match each letter in the Venn diagram to the correct outcome from the outcome tree. Write the correct letter in each box

a	a
b	b
c	c
d	d
e	e

	196
	45
	120
	15
	55
