

Using two-way tables to display outcomes for two events

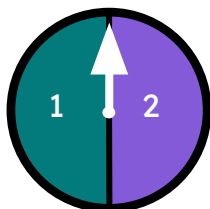

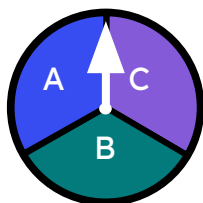

Task A: Outcome table from a two-stage trial

1) This spinner is going to be spun twice as part of a two-stage trial. Complete the **outcome table** to show all the possible outcomes.

	A	B	C
A	AA	AB	AC
B	BA	BB	BC
C	CA	CB	CC

2) Both spinners are going to be spun as part of a two-stage trial. Complete the **outcome table** to show all the possible outcomes.

	1	2
A	A1	A2
B	B1	B2
C	C1	C2

3) Laura and Izzy are playing a game of 'rock, paper, scissors'. Where rock beats scissors, scissors beats paper and paper beats rock.

Complete the **outcome table** to show when each person wins.

		Laura		
		rock	paper	scissors
Izzy	rock	no one	Laura	Izzy
	paper	Izzy	no one	Laura
	scissors	Laura	Izzy	no one

Task B: Outcome table from two events

1) The spinner will be spun.

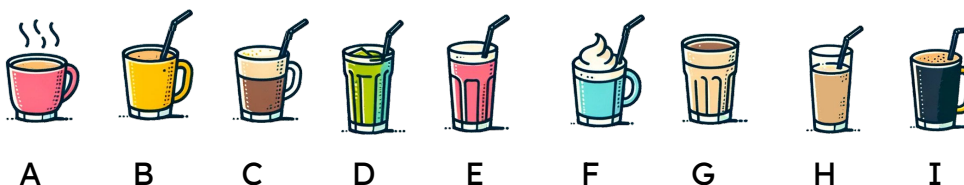

The two events are even numbers and factors of 14.

Complete this **outcome table** to show the outcomes for each event.

	even numbers	odd numbers
factors of 14	2	1 7
not factors of 14	4 6 8	3 5

2) Sort these drinks into the **outcome table**.

	handle	no handle
straw	B C F I	D E H
no straw	A	G

Task C: Frequency in a two-way table

1) A random sample of people is being selected by allocating an integer from 1 to 50 to each person and then picking based on two rules.

Rule 1 is that the integer is a **multiple of 10** and rule 2 is that the integer is a **multiple of 4**.

Complete the two-way table.

	multiple of 10	not a multiple of 10	total
multiple of 4	2	10	12
not a multiple of 4	3	35	38
total	5	45	50

Aisha	Music	Sport
Andeep	Music	
Izzy		
Jacob	Sport	
Jun	Music	Sport
Lucas	Music	Sport
Laura	Music	
Sam	Music	
Alex	Sport	
Sofia	Music	

10 pupils have been asked about whether they are members of a sports or music club.

a) Circle all the numbers in the table that include Izzy.

b) Which clubs does Sofia do, if any?

	sports club	no sports club	total
music club	3	4	7
no music club	2	1	3
total	5	5	10

3) Fill the missing boxes on each of these two-way tables.

a)

	1st attempt	2nd attempt	total
pass	12	10	22
fail	16	6	22
total	28	16	44

b)

	child	adult	total
goggles	18	5	23
no goggles	9	31	40
total	27	36	63
