

Using a Venn diagram to display outcomes for two events

1 Which of these is a Venn diagram? Tick 1 correct answer

	prime number (P)	not a prime (P')
odd number (O)	3 5	1
not an odd number (O')	2	4

☐
☐
☒

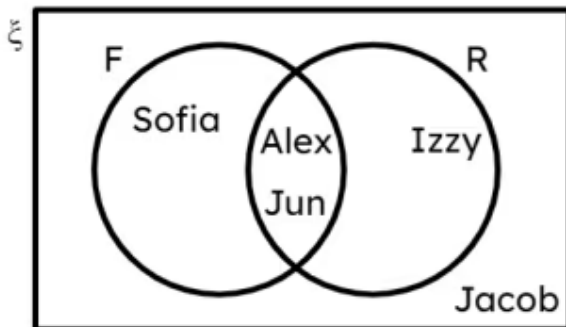

2 Use this Venn diagram to match the events to the outcomes. Write the correct letter in each box

a	event A
b	event B
c	not event A
d	not event B
e	event A and event B
f	event A or event B

a	{12, 14, 15, 20, 31, 72}
d	{12, 14, 18, 31, 44, 62, 72}
b	{10, 15, 20, 59, 99}
e	{15, 20}
f	{10, 12, 14, 15, 20, 31, 59, 72, 99}
c	{10, 18, 44, 59, 62, 99}

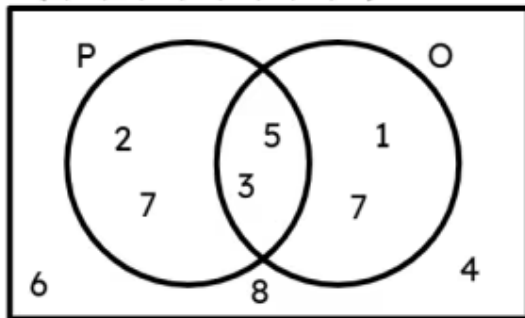

- 3 The Venn diagram shows 5 pupils and whether they play football (F) or play rugby (R). Which pupil plays rugby but not football? Tick **1** correct answer

- ☐ Jun
- ☐ Alex
- ☐ Sofia
- ☒ Izzy
- ☐ Jacob

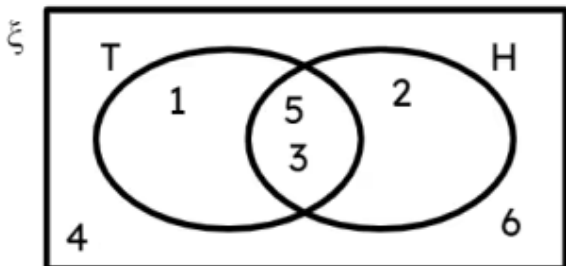

- 4 This Venn diagram shows prime numbers (P) and odd numbers (O). The Venn diagram has two errors. What are they? Tick **2** correct answers

$\xi = \{1, 2, 3, 4, 5, 6, 7, 8, 9\}$

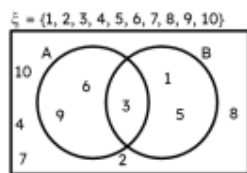

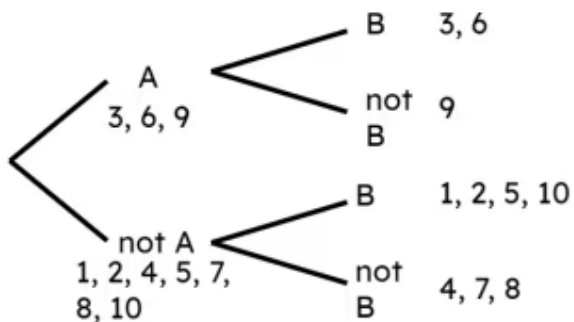

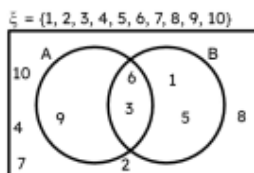

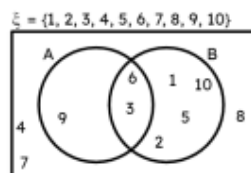

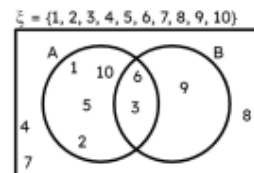

- ☐ The outcomes are not in numerical order.
- ☒ The outcomes of the sample space are not all represented.
- ☐ The circles are not labelled A and B.
- ☒ There is a duplication of an outcome.

- 5 There are 6 outcomes in the sample space shown in this Venn diagram. Fill in the blank

- 6 Which Venn diagram shows the same information as this outcome tree? Tick **1** correct answer
