

Comparing representations of outcomes for two events

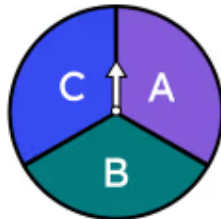

- 1 The number of outcomes on this spinner that are odd numbers is _____ . Fill in the blank

- 2 Trial: flipping the coin and spinning the spinner once each. Which of these lists of outcomes for the trial show a complete sample space? Use H for 'heads' and T for 'tails'. Tick **2** correct answers

coin
{heads, tails}

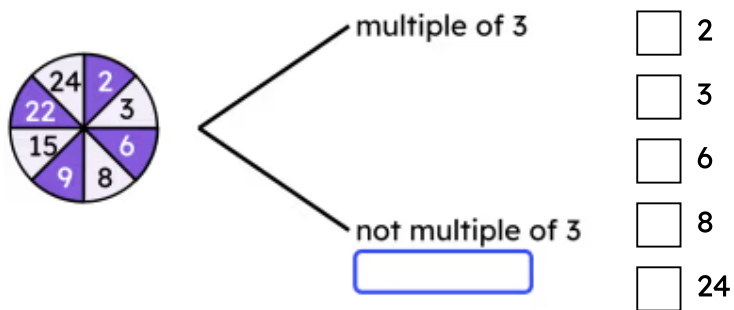

spinner

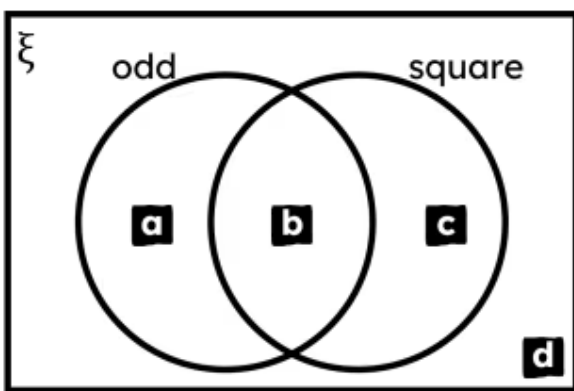

- ☐ {H, T, A, B, C}
- ☐ {H, T, A, B, C, A, B, C}
- ☐ {HA, HB, HC, TA, TB, TC}
- ☐ {HT, AB, AB, CB}
- ☐ {TB, HA, TC, HC, TA, HB}

- 3 Trial: spinning this spinner once. Event: multiple of 3. Which of these outcomes should be written inside the box? Tick 2 correct answers

- 4 Match each number to its correct location on the Venn diagram. Write the correct letter in each box

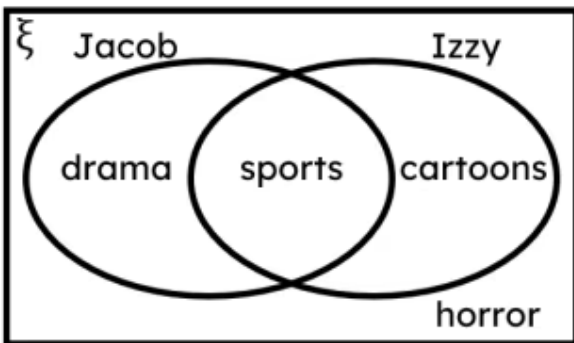

a	5
b	9
c	4
d	6

	c
	d
	a
	b

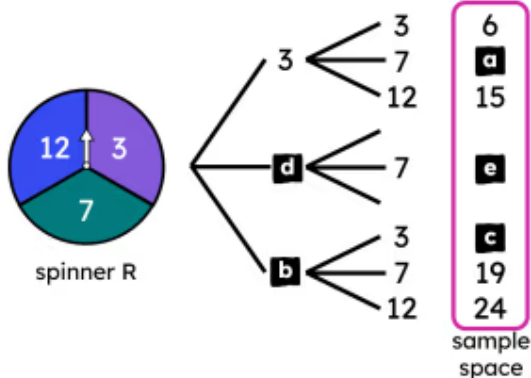

- 5 The Venn diagram shows a selection of types of TV shows that Jacob and Izzy do and do not like. Which of these statements is true for drama TV shows? Tick **1** correct answer

- ☐ Both Jacob and Izzy like drama shows.
- ☐ Jacob likes drama shows, but Izzy doesn't.
- ☐ Izzy likes drama shows, but Jacob doesn't.
- ☐ Neither Jacob nor Izzy like drama shows.

- 6 This incomplete outcome tree represents all outcomes from spinning spinner R twice and adding the results of each spin. Match each letter to its value in the sample space. Write the correct letter in each box

a	a
b	b
c	c
d	d
e	e

	14
	12
	10
	15
	7
