

Name: _____

Checking listing possible outcomes

Task A: Listing outcomes: one-stage or two-stage trials

1) There are two decks of cards.

Deck A (0 to 2):

0	1	2
---	---	---

Deck B (0 to 9):

0	1	2	3	4	5	6	7	8	9
---	---	---	---	---	---	---	---	---	---

- Write down all the possible outcomes for drawing a card from Deck A.
- Write down all the possible outcomes for drawing a card from Deck B.
- Write down all the possible outcomes for drawing one card from each deck.
- Describe the system that you used to list all of the outcomes in part (c).

2) Here is a restaurant menu for two courses.
A customer chooses one starter and one main course.

- List all the possible outcomes for a customer's meal.
- Describe the system that you used to list all of the outcomes in part (a).

<u>Starters</u>	
soup (S)	
calamari (C)	
meatballs (M)	
<u>Mains</u>	
lasagne (L)	
ravioli (R)	
bolognese (B)	
pizza (P)	

Task B: Listing outcomes for three-stage trials

1) A flipped coin has two outcomes: 'heads' (H) and 'tails' (T).

Complete the list all possible outcomes for when a coin is flipped three times.

HHH

HHT

2) A netball team plays three matches. Each match, the team could either win (W), lose (L) or draw (D).

List all the possible outcomes for the results of the three matches.

3) Here is a restaurant menu for two courses.

A customer chooses one starter, one main course and one dessert.

List all the possible outcomes for a customer's meal.

You may use your answers to Task A to help you.
