

Calculating theoretical probabilities from a table (one event)

- 1 The table shows data about the number of animals in a zoo. An animal is selected at random. Which animal has a probability of $\frac{5}{26}$ of being chosen? Tick **1** correct answer

animal	frequency
lion	12
giraffe	5
elephant	9

- ☐ lion
- ☐ giraffe
- ☐ elephant

- 2 A group of people were surveyed and asked which of the three places they last visited. A participant in the survey is then chosen at random. What is the probability that they responded 'museum'? Tick **1** correct answer

Place to visit	Frequency
Museum	18
Theatre	15
Zoo	12

- ☐ $\frac{1}{3}$
- ☐ $\frac{1}{18}$
- ☐ $\frac{18}{27}$
- ☐ $\frac{18}{45}$

- 3 The tally chart shows the number of cars in a car park of each colour. A car is chosen at random from the car park. What is the probability that it is blue? Tick **1** correct answer

Colour	
red	
green	
blue	

- ☐ $\frac{1}{7}$
- ☐ $\frac{1}{3}$
- ☐ $\frac{7}{19}$
- ☐ $\frac{7}{12}$

- 4 The table shows the possible outcomes when drawing from a deck of numbered cards. All of the outcomes are equally likely. What is the probability that the card picked is odd? Tick **1** correct answer

	prime number	not a prime number
odd number	3 7 5	1 9
not an odd number (even)	2	4 6 8

- ☐ $\frac{1}{2}$
- ☐ $\frac{1}{4}$
- ☐ $\frac{3}{9}$
- ☐ $\frac{4}{9}$
- ☐ $\frac{5}{9}$

- 5 The table shows the possible outcomes when drawing from a deck of numbered cards. All of the outcomes are equally likely. What is the probability that the card picked is prime? Tick **1** correct answer

	prime number	not a prime number
odd number	3 7 5	1 9
not an odd number (even)	2	4 6 8

- ☐ $\frac{1}{2}$
- ☐ $\frac{1}{4}$
- ☐ $\frac{3}{9}$
- ☐ $\frac{4}{9}$
- ☐ $\frac{5}{9}$

- 6 The table shows the possible outcomes when drawing from a deck of numbered cards. All of the outcomes are equally likely. What is the probability that the card picked is an odd prime? Tick **1** correct answer

	prime number	not a prime number
odd number	3 7 5	1 9
not an odd number (even)	2	4 6 8

- ☐ $\frac{1}{2}$
- ☐ $\frac{1}{4}$
- ☐ $\frac{3}{9}$
- ☐ $\frac{4}{9}$
- ☐ $\frac{5}{9}$
