

Checking understanding of sequences

- 1 A sequence is a succession of objects, diagrams or values usually formed according to a rule. Fill in the blank
- 2 What sort of pattern does this sequence have 12, 6, 3, 1.5, ... Tick **1** correct answer
- ☐ constant additive pattern
- ☒ constant multiplicative pattern
- ☐ neither additive nor multiplicative
- 3 Which of these additive rules would create a decreasing pattern? Tick **1** correct answer
- ☒ $+ (-2)$
- ☐ $+ 0$
- ☐ $+ \frac{1}{2}$
- ☐ $+ 3$
- 4 What is the next number in this constant multiplicative pattern? 1, 4, 16, 64 ... Fill in the blank

- 5 Starting with the first value, sort these numbers into a sequence with constant multiplicative pattern of $\times 0.1$ Use numbers to show the correct order

3	1
4	0.1
1	100
2	10
5	0.01

- 6 Match the sequence with its constant multiplier. Write the correct letter in each box

a	0.2, -1, 5, ...
b	2, 10, 50, ...
c	25, 5, 1, ...
d	-1, 0.2, -0.04, ...
e	2, 5, 12.5, ...
f	10, 4, 1.6, ...

f	$\times \frac{2}{5}$
d	$\times - 0.2$
a	$\times - 5$
e	$\times \frac{5}{2}$
c	$\times \frac{1}{5}$
b	$\times 5$
