

Name: _____

Starter quiz

Checking understanding of algebraic notation

- 1 Here is a number line with two numbers shown. What calculation will work out the length of the arrow? Tick **1** correct answer

☐ $98 + 134$

☐ $98 - 134$

☐ $134 - 98$

☐ $134 \div 98$

☐ 134×98

- 2 Which calculation represents a half of 8? Tick **2** correct answers

☐ $\frac{1}{2} \times 8$

☐ $\frac{1}{2} \div 8$

☐ $8 \div \frac{1}{2}$

☐ $\frac{8}{2}$

☐ 8×2

3 Which of these are integers? Tick 3 correct answers

☐ -3

☐ $-\frac{1}{5}$

☐ 0

☐ 3.6

☐ 101

4 A bag of sweets costs 5 p, which of these could represent the cost of buying any number of bags of sweets? Tick 1 correct answer

☐ $a + 5$

☐ $5a$

☐ $a5$

☐ a^5

☐ $\frac{a}{5}$

5 Match each calculation to its answer. Write the correct letter in each box

a	$5 + 3 \times 2 + 1$
b	$(5 + 3) \times 2 + 1$
c	$(5 + 3) \times (2 + 1)$
d	$5 + 3 \times (2 + 1)$

	16
	17

6 Match each calculation to its answer. Write the correct letter in each box

a	$\frac{10 - 4}{2} + 1$
b	$10 - \frac{4}{2} + 1$
c	$\frac{10 - 4}{2 + 1}$
d	$10 - \frac{4}{2 + 1}$

	9
	$\frac{26}{3}$
