

Problem solving with linear equations

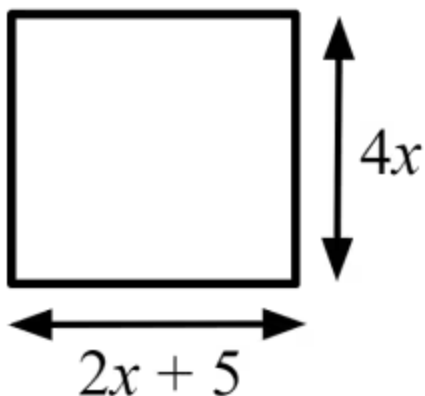

- 1 The perimeter of this square is 80 units. You can find the value of x using the equation $4(7x - 8) = 80$. Fill in the blank

- 2 The perimeter of this square is 80 units. What is the value of x ? $x = \underline{4}$. Fill in the blank

- 3 Find the perimeter of this square. $P = \underline{40}$. Fill in the blank

- 4 An electrician has a call-out fee of £120 and then charges an hourly rate for their work. For a six hour job they charge £480. Calculate their hourly rate. Tick **1** correct answer
- ☐ £100
- ☐ £80
- ☒ £60
- ☐ £20
- 5 Sofia thinks of a number. She multiplies it by 6 and then subtracts 24. Sofia multiplies her original number by 4 and adds 6. She gets the same answer both times. Sofia's number is 15. Fill in the blank
- 6 Three children share 65 sweets. Lucas takes 5 more sweets than Jacob does. Izzy takes four times as many sweets as Jacob does. Jacob takes 10 sweets. Fill in the blank
