Misleading data

- 1 'Local shops see devastating drop in the number of pupils visiting them in 2023.' What reason explains why the graph may not support the headline? (Tick **1** correct answer)

- ☐ The year starts at 2020
- ☐ The y axis has a broken scale.
- ☐ Not all shops have been surveyed.
- ☐ Not all pupils have been surveyed.

- 2 What is the difference between the number of pupils in 2021 and 2022?

- 3 A pie chart (pie graph) is a _____ graph where sectors represent different groups proportionally. (Fill in the blank)

- 4 A scatter graph is a visual representation for _____ data. (Fill in the blank)

5 If two things are correlated then one must cause the other. (Tick **1** correct answer)

☐ True - positive correlation means as one variable increases, so does the other.

☐ False - there may be a third factor affecting both or coincidence.

6 In what ways could a chart be manipulated to make one element appear significantly bigger than it really is?
(Tick **2** correct answers)

☐ Draw a 3D pie chart, at an angle, with the sector for that element at the front.

☐ Draw a bar chart and leave numbers off the frequency axis.

☐ Draw a 2D pie chart, at an angle, with the sector for that element at the front.

☐ Draw a 3D bar chart with the bar for that element in the background.
