25%

- 5 What percentage of 136.25 is 32.7?

24%

- 6 Sofia says 'If I start with a number and reduce it by 100% and then increase the answer by 100% then I will get back to the number I started with.' Is she correct? (Tick **1** correct answer)

- ☐ Yes - the percentages are the same so the overall value does not change.
- ☐ Yes - the percentages are the same so the operations cancel each other out.
- ☐ False - you will end up with 10% of the original amount.
- ☒ False - you will end up with zero.
