

Enlarging objects

Task A: Enlarging using an integer scale factor

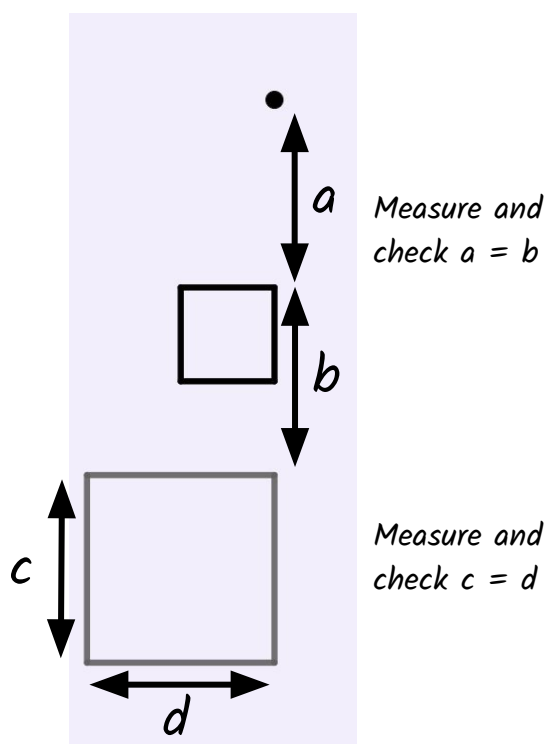

1) Enlarge the object by a scale factor of 3 from the point marked.

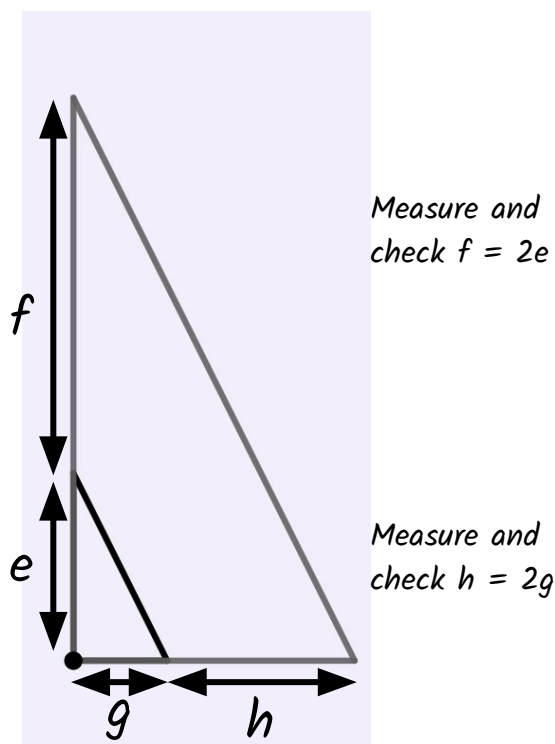

2) Enlarge the object by a scale factor of 4 from the point (2, 1).

3) Enlarge the object by a scale factor of 2 from the point marked.

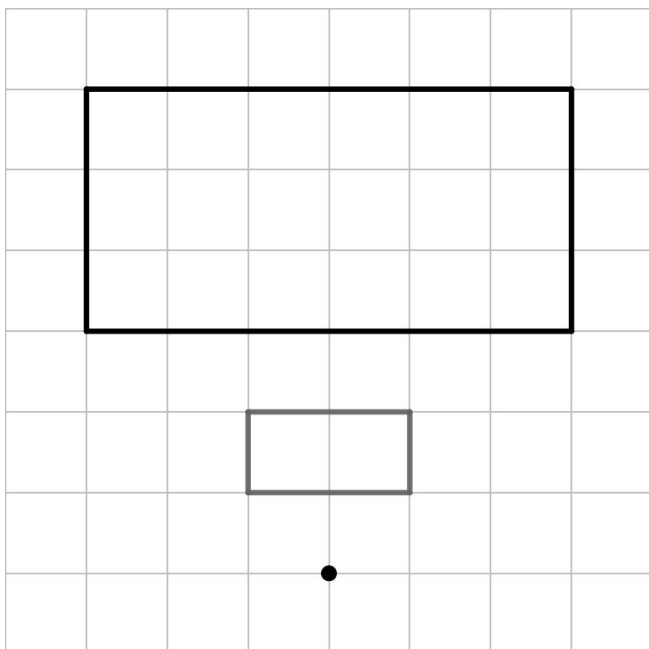

4) Enlarge the object by a scale factor of 3 from the marked vertex.

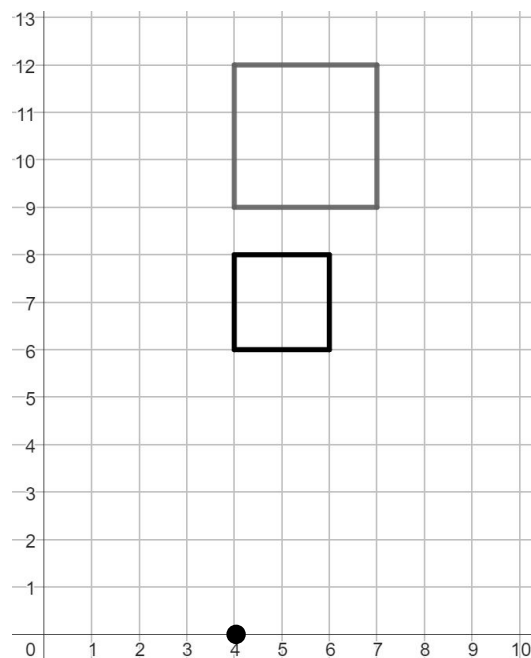

Task B: Enlarging using a non-integer scale factor

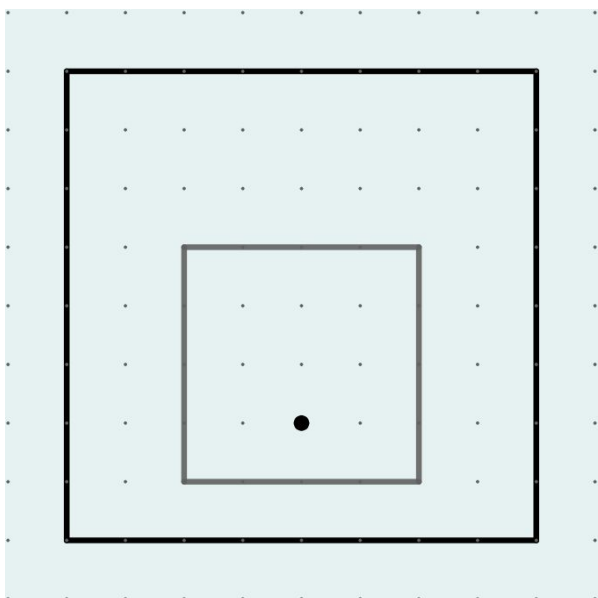

- 1) a) Enlarge the object by a scale factor of $\frac{1}{3}$ from the point marked.

- b) Enlarge the object by a scale factor of $1\frac{1}{2}$ from the point (4, 0).

- 2) a) Enlarge the object by a scale factor of $\frac{1}{2}$ from the point marked.

- b) Enlarge the object by a scale factor of $2\frac{1}{2}$ from the point marked.
