

Investigating transformations with Desmos

1 The _____ is the _____ figure, before a transformation has been applied.

Tick 2 correct answers

- ☐ image
- ☒ object
- ☒ starting
- ☐ resulting

2 The _____ is the _____ figure, after a transformation has been applied.

Tick 2 correct answers

- ☒ image
- ☐ object
- ☐ starting
- ☒ resulting

3 $\begin{pmatrix} -4 \\ 2 \end{pmatrix}$ What does the -4 mean? Tick 1 correct answer

- ☒ translation of 4 units left
- ☐ translation of 4 units right
- ☐ translation of 4 units up
- ☐ translation of 4 units down

4 $\begin{pmatrix} -4 \\ 2 \end{pmatrix}$ What does the 2 mean? Tick **1** correct answer

- ☐ translation of 2 units left
- ☐ translation of 2 units right
- ☒ translation of 2 units up
- ☐ translation of 2 units down

5 $\begin{pmatrix} 5 \\ -7 \end{pmatrix}$ What does the 5 mean? Tick **1** correct answer

- ☐ translation of 5 units left
- ☒ translation of 5 units right
- ☐ translation of 5 units up
- ☐ translation of 5 units down

6 $\begin{pmatrix} 5 \\ -7 \end{pmatrix}$ What does the -7 mean? Tick **1** correct answer

- ☐ translation of 7 units left
- ☐ translation of 7 units right
- ☐ translation of 7 units up
- ☒ translation of 7 units down
