

Investigating transformations with GeoGebra

1 $\begin{pmatrix} 9 \\ 12 \end{pmatrix}$ What does the 9 mean? Tick **1** correct answer

- ☐ translation of 9 units left
- ☒ translation of 9 units right
- ☐ translation of 9 units up
- ☐ translation of 9 units down

2 $\begin{pmatrix} 9 \\ 12 \end{pmatrix}$ What does the 12 mean? Tick **1** correct answer

- ☐ translation of 12 units left
- ☐ translation of 12 units right
- ☒ translation of 12 units up
- ☐ translation of 12 units down

3 $\begin{pmatrix} -9 \\ -12 \end{pmatrix}$ What does the -9 mean? Tick **1** correct answer

- ☒ translation of 9 units left
- ☐ translation of 9 units right
- ☐ translation of 9 units up
- ☐ translation of 9 units down

4 $\begin{pmatrix} -9 \\ -12 \end{pmatrix}$ What does the -12 mean? Tick **1** correct answer

- ☐ translation of 12 units left
- ☐ translation of 12 units right
- ☐ translation of 12 units up
- ☒ translation of 12 units down

5 Desmos is an example of dynamic software. Tick **1** correct answer

- ☒ True
- ☐ False

6 Desmos has an option to allow you to choose whether you rotate clockwise or anticlockwise. Tick **1** correct answer

- ☐ True
- ☒ False
