

Name: \_\_\_\_\_

Starter quiz

## Problem solving with transformations

---

1 The \_\_\_\_\_ is the distance around a 2D shape. Fill in the blank

2 Match the inverse operations. Write the correct letter in each box

|   |          |
|---|----------|
| a | +        |
| b | $\times$ |
| c | —        |
| d | $\div$   |

|  |          |
|--|----------|
|  | $\times$ |
|  | +        |
|  | $\div$   |
|  | —        |

3 Complete the descriptions below by matching the transformation with the detail needed to describe it fully. Write the correct letter in each box

|   |                |
|---|----------------|
| a | A rotation     |
| b | A reflection   |
| c | A translation  |
| d | An enlargement |

|  |                                            |
|--|--------------------------------------------|
|  | by $90^\circ$ clockwise about (3,4)        |
|  | in the y-axis.                             |
|  | by scale factor 0.25 from (0, 0)           |
|  | by $\begin{pmatrix} -1 \\ 5 \end{pmatrix}$ |

4 What is the area of a triangle with a base length of 6 cm and perpendicular height of 8 cm? Tick **1** correct answer

☐  $48 \text{ cm}^2$

☐  $24 \text{ cm}^2$

☐ 48 cm

☐ 24 cm

5 Which transformation does this property table belong to? Tick **1** correct answer

| Property    | Changed - yes/no? |
|-------------|-------------------|
| Orientation | No                |
| Lengths     | Yes               |
| Position    | Yes               |
| Angles      | No                |
| Sense       | No                |

- ☐ translation
- ☐ rotation
- ☐ reflection
- ☐ enlargement

6 The point  $(3, 5)$  is reflected in the \_\_\_\_\_-axis to become  $(-3, 5)$ . Fill in the blank
