

Introduction to translation

1 A transformation is a process that may change the size, orientation or position of a shape. Fill in the blank

2 This L shape is twisted, which of these could be the image? Tick 1 correct answer

☐

☐

☒

3 When a vertex is labelled B', it means the image of vertex B. Fill in the blank

4 Congruent shapes need to have the same orientation, true or false? Tick 1 correct answer

☐

True: otherwise they will not be able to stack up on top of each other.

☒

False: if the orientation is different they can be manipulated to stack.

5 Regardless of whether an object is flipped, twisted or moved, the lengths and angles are invariant? Fill in the blank

- 6 Which figure does this description match? The object has moved up without twisting or flipping. Tick **1** correct answer

☐
☒
