

Name: _____

Starter quiz

Introduction to rotations

1 What is $360 - 90$? Tick **1** correct answer

☐ 170

☐ 250

☐ 260

☐ 270

☐ 280

2 _____ is the process by which an object is changed into its image by moving, sliding, turning, flipping or stretching. Fill in the blank

3 When a vertex is labelled E' , it means the _____ of E. Tick **1** correct answer

☐ image

☐ object

☐ orientation

☐ position

☐ transformation

4 What does the term "invariant property" mean? Tick **1** correct answer

☐ A shape that hasn't changed location after a translation has been applied.

☐ A property of a mathematical object that hasn't changed after a transformation.

☐ A property of a mathematical object that has changed after a transformation.

☐ A property of a vertex that moves after a transformation.

5 Which properties are invariant when an object is translated? Tick **4** correct answers

- ☐ length of a side
- ☐ size of an angle
- ☐ position
- ☐ orientation
- ☐ sense

6 Which of these shows an arrow that has been turned round? Tick **1** correct answer
