

## Rotating objects

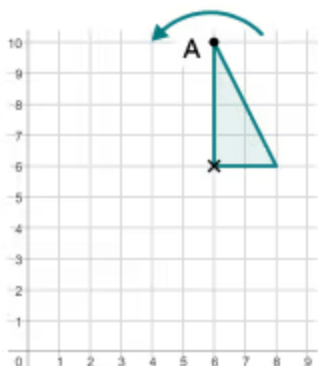

1 When you use tracing paper to rotate an object, which two things should you draw onto the tracing paper? Tick **2** correct answers

- ☐ the origin
- ☒ the whole object
- ☐ exactly two vertices of the object
- ☐ both the x-axis and y-axis
- ☒ the centre of rotation

2 After which step can you remove the tracing paper in order to progress onto the next step in completing your rotation? Tick **1** correct answer

- ☐ after drawing the object and centre of rotation on the tracing paper
- ☐ after drawing the image on the paper underneath
- ☐ after pushing your pencil onto the centre of rotation to use it as a pivot
- ☒ after pushing your pencil onto each of the vertices to leave an imprint
- ☐ after rotating the tracing paper

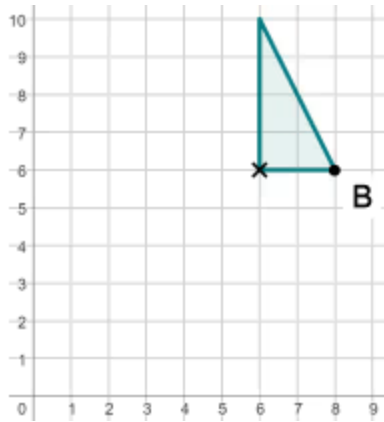

3 This object will be rotated  $90^\circ$  anti-clockwise with the centre of rotation of (6, 6). Where will the image of vertex A end up after this rotation? Tick **1** correct answer

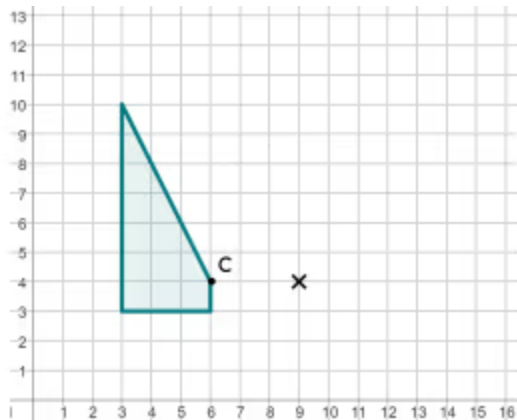

- ☐ (4, 10)
- ☒ (2, 6)
- ☐ (8, 6)
- ☐ (6, 6)
- ☐ (6, 2)

- 4 This object will be rotated  $180^\circ$  with the centre of rotation of (6, 6). Where will the image of vertex B end up after this rotation? (4, 6) Fill in the blank

- 5 This object will be rotated  $90^\circ$  clockwise with the centre of rotation of (9, 4). Where will the image of vertex C end up after this rotation? Tick **1** correct answer

- ☐ (9, 4)  
☐ (9, 6)  
☒ (9, 7)  
☐ (9, 8)  
☐ (9, 10)

- 6 This object will be rotated  $90^\circ$  clockwise with the centre of rotation of (9, 4). Where will the image of vertex D end up after this rotation? (15, 10) Fill in the blank
