

Checking understanding of multiplicative relationships

1 Select the different ways in which proportions can be represented. Tick 4 correct answers

- ☒ percentages
- ☒ decimals
- ☒ fractions
- ☒ ratios
- ☐ lowest common multiple

2 What is 300 % of 0? 0 . Fill in the blank

3 Match each proportion with the correct statement. Write the correct letter in each box

a	$\frac{7}{10}$ were correct
b	$\frac{1}{2}$ were correct
c	$\frac{4}{5}$ were correct
d	$\frac{13}{25}$ were correct

b	In Test B, Sofia gets 35 out of 70 correct.
c	In Test C, Jacob go 4 out of 5 correct.
a	In test A, Laura gest 14 out of 20 correct
d	In Test D, Lucas got 104 out of 200 correct.

4 An Oak teacher is paid £4000 per month and gets a 15% pay rise. A part time Oak teacher gets £800 per month and receives a £96 pay rise. Are the pay rises the same? Select the correct statement. Tick 1 correct answer

- ☐ Yes, both pay rises are 15%
- ☐ No, the part time Oak teacher receives a higher pay rise.
- ☒ No, the Oak teacher receives a higher pay rise than the part time teacher.
- ☐ There is not enough information to determine if they receive the same pay rise.

5 Match each description to the correct statement. Write the correct letter in each box

a	A receives more than B
b	B receives more than A
c	A receives the same as B
d	Not enough information

<i>b</i>	A receives 35% of £90 and B receives 30% of £120
<i>a</i>	A receives 10% of £80 and B receives 50% of £14
<i>d</i>	A receives 85% and B receives 90%
<i>c</i>	A receives 15% of £400 and B receives 80% of £75

6 A 10% reduction of a 20% reduction of £200 is £ 144 . Fill in the blank
