

Checking and securing finding a fraction of a given amount

1 Match the equivalent ratios. Write the correct letter in each box

a	4 : 5
b	4 : 3
c	3 : 4
d	5 : 4
e	5 : 3
f	3 : 5

<i>f</i>	24 : 40
<i>d</i>	60 : 48
<i>c</i>	15 : 20
<i>a</i>	12 : 15
<i>b</i>	16 : 12
<i>e</i>	25 : 15

2 What symbol separates the parts of a ratio? E.g. the mathematical notation for writing 4 to 5. Fill in the blank

:

3 Simplify 24 : 36 Fill in the blank

2 : 3

4 In a bag there are only triangles and squares. The ratio of triangles to squares is 3 : 1. There are 60 shapes in total. Who correctly worked out the number of squares? Tick 1 correct answer

- ☐ Alex "60 triangles, so there are 20 squares because of the ratio is 3 : 1"
- ☐ Laura "180 triangles, so there are 40 squares because of the ratio is 3 : 1"
- ☐ Andeep "20 triangles, so there are 40 squares because of the ratio is 4 : 1"
- ☒ Sofia "45 triangles, so there are 15 squares because of the ratio is 4 : 1"
- ☐ Jun "34 triangles, so there are 26 squares because of the ratio is 4 : 1"

5 Chocolates in a box either have red or blue wrappers. The ratio of red to blue is 5 : 4. If the difference between the red and blue chocolates is 3, how many chocolates are in the box? Fill in the blank

27

- 6 Chocolates in a box either have red or blue wrappers. The ratio of red to blue is 3 : 2. Andeep eats 2 blue chocolates and now the ratio is 12 : 7. How many blues were in the box originally? Fill in the blank

16
